ua animalia plus [illegible] q[illegible]
subiecta unda precipitet [illegible]
stare infixum [illegible] retinentes [illegible]
numeris motibus [illegible]
naute [illegible]
tantum insigentium [illegible] quasi [illegible]
nerata ita manum percutientis inficiat [illegible] pars sua [illegible]
aliquo immobilis obstupescat. Tradunt [illegible] potest
tardius ire navigia testudinis pedem [illegible] et altex
monstri genus haud minus incredibile esse [illegible]
scilicet inaudita magnitudine [illegible]
ne longitudine sunt passuum decem [illegible]
se. Elephantum enim exeuntem quum coeperit [illegible] per aerem voli
tando tulerit in terram iacit. Quo casu [illegible] Depascitur nec ele
phantum solum: sed tota insuper rostro [illegible] navigia secum tollit in
nubila: et pendentes per inane miseros naviga[illegible] ipso terribi
li delet, ac morte consumit.

Explicata ventorum ratione transitus convenit ad alia tempestatum
prognostica, et quoniam classem [illegible] protervis ventorum
prelijs et nautarum imperitia sepenumero [illegible] est [illegible]
tiarum oportuna tum belli tum navigandi [illegible] tempora describentes fu
turi motus ventorum: et imbrium tempestatumque [illegible] diligen
tissime perquisita tradentes. Et primum a sole et luna ceterisque syderibus.
Hinc enim ut poeta inquit doctissimus tempestates dubio predicere ce
lo possumus. Et quando infidum remis impellere [illegible] conveniat
Quando armatas deducere classes. Aut tempestivam [illegible] pinum:
solutaque quem iovis oculum appellant [illegible]
uens serenum diem nuntiat: idem quum [illegible]
conglobabuntur: hyemem asperam [illegible] repellantur
et ad occasum abibunt serenitatem [illegible] aquam
et ventum preenuntiant: si nubes solem circumdederint quanto minus
luminis relinquunt tanto turbidior tempestas [illegible]
partim ad austrum partim ad Aquilonem [illegible]
sit: pluviam tamen ventosque significabunt [illegible]
stres [illegible] quia circumdati nubibus [illegible]
[illegible]
