63

My dear Sir

This will be delivered to you by my
son, whom I recommend to your kind care and
protection. Having written to you by the post on the
plan of study I am most desirous he should pursue
and understanding that I am not to seal a letter sent
by a private hand, I refer you to that & to my future
letters by the post.

If there is any point on which you wish
me to enter more particularly, pray send one word by
Mr Lapsens on his return.

Yours very truly

Holden
