Professor Von Schlegel

Bonn

(67)

Sir,

By the desire of my Father I have the
pleasure of forwarding to you a copy of a work
lately edited by him, of which he begs your
acceptance. It consists of some essays which
he formerly gave to the world & which he has now
collected and published together -

He would have himself written to you but he has
so long been confined by sickness that he is unable to do so.

Thank the honour to be

Sir

Your most obt. Servant
