

Badogon Place Sunday

19. Oct. 1823

My Dear Sir

You should have had your

Papers much sooner if I had not had

an elapse which I hope you have escaped.

I have peely corrected what I thought defective in the very excellent Transla

tion of your Prospectus.

Pray tell me immediately when you

mean to go to Oxford that I may

arrange matters for your Reception before

you set out. The Honour of England is

interested in the due Respect shown by

that University to such a Man as you
