AESCHYLUS.—THE "AGAMEMNON." With an introduction, commentary, and translation. 8vo. 12s.

[*Classical Library.*

ST JAMES'S GAZETTE: "Worthy to take rank with the edition of Sophocles by Dr Jebb, to whom the volume is dedicated."

SATURDAY REVIEW: "It is the distinguishing mark of Dr Verrall's scholarship to disregard every tradition which he cannot verify and to defy every opinion which he does not think reasonable. Never has he more clearly or (we think) more successfully displayed his audacity of innovation than in this edition of the *Agamemnon*. . . . With much that will provoke dissent and much that calls for careful consideration, this edition of the *Agamemnon* is distinguished on every page by the patient thought and the robust originality which are only found in the highest scholarship."

CAMBRIDGE REVIEW: "So far from destroying, the editor has built up and beautified the fine structure upon which he was at work. By a stricter adherence to the MS. he has often succeeded in gaining an insight into the meaning of the dramatist, which his predecessors missed; we would refer in particular to the able treatment of the first three *stasima*. In many minor points, too, we heartily concur with his opinion. . . . The really important part of the work is, if we are not greatly mistaken, the masterly Introduction."

SCOTS OBSERVER: "In Dr Verrall's edition of the *Agamemnon* we find all that subtlety and cleverness combined with undoubted scholarship, which were so fully displayed in the same author's edition of the *Septem*. . . . Dr Verrall belongs to quite a different school; his business is to understand his author and to make others understand him. . . . Dr Verrall has written a brilliant introduction; and here it is that we find him at his best."

— *THE "SEVEN AGAINST THEBES."* With an introduction, commentary, and translation. 8vo. 7s. 6d.

[*Classical Library.*

CAMBRIDGE REVIEW: "We have not left ourselves space to dwell much on the commentary. Suffice it to say that, like all Mr Verrall's works, it is suggestive and stimulating. In contributions to Greek lexicography it is as rich as his edition of the *Medea*; the translation is a most valuable help, and, though not aiming at effect, is in thoroughly good style."

PROFESSOR TYRRELL in the *CLASSICAL REVIEW*: "Mr Verrall's edition of the *Seven against Thebes* is highly interesting, and, in a word, an important contribution to classical learning. The notes are full of instruction and suggestion. . . . The translation is a work of the highest art, breathing the very spirit of Aeschylus."

— *THE "SEVEN AGAINST THEBES."* With an introduction and notes (school edition) by A. W. VERRALL, Litt.D., Fellow of Trinity College, Cambridge, and M. A. BAYFIELD, Head Master of Christ's College, Brecon. Fcap. 8vo. 2s. 6d.

[*Classical Series.*

ACADEMY: "The *Seven against Thebes* is a play so well suited by subject to school reading that we welcome this reduction of Mr Verrall's larger work to a size and price which should popularize it for school use. . . . The editors seem to fear that their notes may be thought too copious. We agree that the vice of most school editions is that they are apt to substitute help for effort. But the *Seven against Thebes* required to be brought definitely into the range of school reading below the highest forms, and for this purpose we do not think the notes are too full. They are certainly interesting."

EURIPIDES.—THE "MEDEA." With an introduction and commentary. 8vo. 7s. 6d.

[*Classical Library.*

— *THE "MEDEA."* Edited with introduction and notes. Fcap. 8vo. 2s. 6d.

[*Classical Series.*

JOURNAL OF EDUCATION: "Altogether, Mr Verrall's is the best school edition of the *Medea*, and one of the best school editions of any Greek play with which we are acquainted."

STUDIES LITERARY AND HISTORICAL IN THE ODES OF HORACE. 8vo. 8s. 6d.

GUARDIAN: "One of the most brilliant and ingenious products of English scholarship. . . . It deserves attention for its extreme cleverness and its stimulating suggestiveness."

AMERICAN JOURNAL OF PHILOLOGY: "Certainly very suggestive, and all of them are of value in the study and proper understanding of the Odes."
