*Of the Companions of Metals; and first  
of the Earth, and the several Colours  
thereof.*

LL the inanimate Things  
within the Bowels of the  
Earth are reducible into one  
of these four Kinds of  
Mixture, *viz.* METALS,  
STONES, EARTH, or  
JUICES.

Nature produces These mingled one with  
the other; and because the Art of separating of  
Metals cannot be put in practice without un-  
derstanding the Nature of the other three,
