### PIANOS

Dear Sirs—I can only say that your pianos, notably the grands with the tension device—are superb, ideal. My selection of them for my concerts and home use is the best evidence of my affection for your noble pianos.

COLD DRY STORAGE FOR FURS

Persons going South for the remaining cold weather will find it safer and more convenient to store their furs before leaving, as irreparable damage may be done to valuable garments by neglect during the spring months. Our method of caring for furs uses no preservative but pure dry air kept in constant circulation. All storage rooms are above the street level, and each garment has its own hanger, its own cover and its own hook or peg.
