Plendida gens Pindi, dulces Aganippidos undas  
Quæ cupidis labiis haurit, Simulacra Virorum  
Doctorum in magno semper confuevit habere  
Et raro pretio dignoque extollere honore.  
Interdum effigies finxere è Marmore duro,  
Quæ iacies præ se clarentis lumine ferrent  
Ingenii fulgente Viri; quin & studiosa vetustas  
Pulchri de vario fecit Simulacra metallo  
Illorum, Musas qui perpoliere novenas;  
Quandoque & scitus pictor variante colore  
Magnorum scripsit quondam docta ora Virorum.  
Quippe amor intensus medium hoc non norat ineptum,  
Ne forte obtegerent aliquando oblivia cæca  
Nomina, quæ cæli summo dignissima tecto,  
Adjice, quod melior museis nullus in orbe  
Ornatus fingi possit, quam scitula Imago  
Turbæ Pieridum. Quondam loca ditia libris  
His mire ornabant; sæpe & rubrica librorum  
Tempore, quo nobis concessum est vivere, vultum  
Ostendit celebrem cujusdam Heliconis Alumni.  
Pectori.

Pectoribus teneris stimulos quoque talis Imago  
Applicuisse potest parili ut virtute verenda  
Et parili cura Musarum Sacra sequantur.  
Æmula nam virtus sequitur vestigia pressa  
Ducentis repetitque gradum gressumque requirit.  
Sic Epicurei(\*) quondam grati ora Magistri  
Iugiter in digitis gemmis insculpta gerebant,  
Ut testarentur, quantum mens grata saliret  
Lævis sub costis & quod doctrina laborque  
Ipsius cunctis firmissima vincla dedisset.

Ast apage hinc, Epicure, procul! Lux ista benigna  
Quæ nostras hodie terras hilaravit, ocellis  
Nostris pura magis sancta & mage protulit ora  
Vivida per nostros animos splendescit Imago,  
Quam manus ipsius virtutis pingere veræ  
Sustinuit, pietas decorat quam doctaque Peitho,  
Quam Schola nostra colit, quam suspexere Scholares  
Annos jam plures Parnassi Sceptra tenentis.  
Hoc onomasma pios fert in præcordia motus,  
Ut complectamur nostri Simulacra Magistri.  
Müllere, ambrosia qui nos & nectare pascis,  
Tute tenes intra nos ipsos plurima certe  
Signa artis, Tibi nos fidei monumenta tenacis  
Exstruimus dudum, tua semper luget Imago  
Intra discipulos, Tibi quam latissimi adumbrant.  
Hinc etiam cuncti Tibi læta voce precantes  
Optima quæque tuum monstrant onomasma suæve  
Esse ipsis, optant, valeas nec tristis Imago  
Morbonæ aut mortis Te terreat, arma minæque  
Fortunæ iratæ cessent, nunc, turbine pulso  
Nubibus evictis diro cessanteque nimbo,  
Blanditiæ cœli redeant, Tibi gaudia mille  
Mille joci redeant & tempora dulcia mille.  
Nobis semper erit tua jucundissima Imago  
Virtutisque tue fieri Simulacra decenter  
Expetimus votisque piis sine fraude precamur,
