

THE MECHANICS' MAGAZINE

AND

Journal of Engineering, Agricultural Machinery, Manufactures, and Shipbuilding.

(Registered for transmission abroad.)

[EDITED BY R. A. BROOMAN AND E. J. REED.]

VOL. 4.—No. 106. [NEW SERIES.]
VOL. 73.—No. 1952. [OLD SERIES.]

LONDON: FRIDAY EVENING, JANUARY 4, 1861.

PRICE, FOURPENCE.
By Post 5d.

PRINCIPAL CONTENTS.

LEADERS:—	PAGE
New Year Reflections.....	1
Inventions and Patents.....	2
Colliery Explosions.....	4
Mulley's Auxiliary Steering Apparatus.....	5
Nicholson's Improvements in Reaping Machines.....	5
Proceedings of Societies.....	6
Meetings of the Week.....	6
Launch of the Warrior.....	6
Rifled Cast-Iron Service Guns.....	6
Steam-Engine and Boiler Experiments at the Scotland-Street Iron Works.....	7
Nasmyth's Direct-Action Section Fan for Ventilating Collieries.....	7
CORRESPONDENCE:—	
Deep-Sea Sounding Apparatus.....	10
Mr. W. Bridges Adams on Naval Architecture and Gunnery.....	10
Boat-Lowering Inventions.....	11
India-Rubber.....	12
The Reviews of Philosophical Works.....	12
The Giffard's Injector.....	13
Submarine Telegraphy.....	13
The Elastic Property of Air.....	13
On some of the Causes which produce the Popular Indifference to Science.....	13
Our Weekly Gossip.....	14
Abridged Specifications of Patents.....	14
Provisional Protections.....	17
Patent Applied for with Complete Specification.....	18
Notices of Intention to Proceed with Patents.....	18
List of Sealed Patents.....	18
Patents on which the Third Year's Stamp Duty has been Paid.....	18
Patents on which the Seventh Year's Stamp Duty has been Paid.....	18
List of Specifications Published.....	18
Prices Current of Metals.....	18

ROYAL NATIONAL LIFE-BOAT INSTITUTION.—The AID of the public is earnestly solicited, to enable the Institution to continue the maintenance of its 108 Life-boat Establishments in a state of efficiency.

Bankers—Messrs. Willis and Co., Coutts and Co., Herries and Co.
14 John-street, Adelphi, RICHARD LEWIS, Secretary.
London, Nov., 1860.

POLYTECHNIC INSTITUTION (Limited).
Now open with Great Novelties, Mornings, 12 to 6. Evenings, 7 to 10.—Admission 1s. Schools, and Children under Ten Years of Age, Half-price.

THE BRITISH HOROLOGICAL INSTITUTE, 35 Northampton-square, London, E.C.
PRESIDENT.
Valentine Knight, Esq., J.P.
VICE-PRESIDENTS.
J. F. Cole; E. D. Johnson; C. J. Klafftenberger.
TRUSTEES.
J. Adams; Valentine Knight; E. J. Thompson.
TREASURER.—J. C. Webb.
HONORARY SECRETARY.—G. E. Mylne.
Open from 2 till 10 P.M.—Reading-room, open from 7 till 10.

This Institute is established with the view to the advancement of Horological Science, and for cultivating a knowledge of the principles connected with its practical application to the manufacture, by Lectures, Readings, and Discussions.—Also Classes for Mathematics, Mechanical and Ornamental Drawing; the use of a Library, Horological Museum, and Reading-room; with a Monthly Illustrated Journal, for disseminating Scientific and Practical Information (Price 4d.), delivered free to Members.
Terms of Membership, 12s. per annum; and to Country Members, 8s. per annum. Further Particulars may be obtained on application to the Honorary Secretary, at the Institute.

WARRANTED C-STEEL ENGINEERS' and BOILER-MAKERS' HAMMERS, at 1s. 1d. per lb., 2s. off for cash.
GEORGE CAWTHORNE, New-street, Bank-street, Sheffield, has on hand all kinds of C-Steel Engineers' and Boiler-makers' Hand-hammers at 1s. 1d. per lb.; Sledge and Back ditto. All kinds of Spanners and Picks, Tug Irons, &c. Also, Manufacturer of Silver and Copper-smiths', Tinnerns', and Braziers' Tools. All goods warranted. Price Lists forwarded on application to the above address.

A YOUNG MAN (MECHANICAL Engineer and Draughtsman), desires a Situation as Out-door Superintendent or otherwise, with an Engineering Firm. No objection to go abroad.—Address, W. M., Post-office, Edge-hill, near Liverpool.

BOILER TOOLS—WANTED, Second-Hand, a Set of 7 or 8 feet Bending Rolls, top to shift; a powerful Punching and Shearing Machine, capable for 3 Plates. Full particulars, with maker's name, to D.W., Office of this Journal.

ENGINEERS' MACHINES AND TOOLS for SALE, most of them ready for delivery. Punching and Shearing Machines for quarter, three-eighths, half-inch, five-eighths, three-quarters, one-inch, and one-and-a-quarter inch iron; for hand and steam-power.
Boiler-plate Bending Machines, for iron from five to fourteen feet broad, and from quarter to one-and-a-quarter inch thick. Single-gear countersink and geared Self-acting Wall Drills, and Horizontal Boring Machines, for angle iron, &c. A slide and screw-cutting Lathe, a Planing Machine, a Screwing Machine. Blowing Fans. Portable benches with parallel vices, and others tools. Engravings, or tracings, and prices on application to J. TODD and CO., Kent Iron Works, Bridge-street, Greenwich, S. E.

CLIFFORD'S PATENT for UNLASHING, LOWERING and DISENGAGING BOATS.—For full particulars, see page 2 of the advertisement sheet of the last and next number of the MECHANICS' MAGAZINE.

THOMAS CRESSWELL, ENGINEER, Surrey Iron Works, Blackfriars' Bridge, London, Manufacturer of Improved Portable, Traction, and Stationary Engines. Portable Steam-Engines Lent on Hire, from 4 to 25-horse power. See larger advertisement in last and next numbers of the MECHANICS' MAGAZINE.

FORREST & BARR, ENGINEERS and MILLWRIGHTS, GLASGOW.—Manufacturers of Patent Safety Derrick Cranes; Sawing, Planing, and Wood-working Machinery; High-pressure and Condensing Steam Engines; Grain Mills and Builders' Plant.

STEAM BOILERS MADE BY WILLIAM WILSON, Lilybank Boiler Works, 349, Eglinton-street, Glasgow, on the most improved principles, for home and export. All boilers made of best material and workmanship, proved and warranted tight under a high pressure, and delivered at any railway station or shipping port in the kingdom at moderate rates. Lithograph of boilers forwarded post free on application.

CONDIE'S PATENT STEAM HAMMERS.—First-class "Moving Cylinder" Steam Hammers, from 5 cwt. to 7 tons, suitable for jobbing forges, puddling forges and the smiths' shops of engineers, shipbuilders, &c. Pressure of steam required, 25 lbs. to 35 lbs. BAIN and WYLIE, (Successors to JOHN CONDIE, Shields Ironworks, 330 Eglinton-street, Glasgow.

PIPES BURST BY FROST.—The great discomfort and expense occasioned by the bursting of metal pipes from frost is effectually obviated by using the PATENT BITUMINIZED PIPES, which are non-conductors, and not affected by frost; they are as strong as Iron, (bearing a pressure of 220 lbs. on the square inch) while they are only one-fourth the weight, and considerably cheaper than Iron Pipes, and one-fourth the price of Lead Piping. All orders to be addressed to
Mr. ALEXR. YOUNG,
67 Mark-lane, E.C.
Patent Bituminized Water, Gas, and Drainage Pipe Company, Limited.

PATENT BITUMINIZED GAS, WATER, AND DRAINAGE PIPES.—These Pipes possess all the properties necessary for the conveyance of gas, and water, and also for drainage purposes, viz., great strength, great durability, and perfect inoxidability, and being non-conductors are not affected by frost like metal pipes; they are proved to resist a pressure of 220 lbs. on the square inch (equal to 500 feet head of water), are only one-fourth the weight, and considerably cheaper than iron pipes; they are made in 7-feet lengths, and the joinings are simple and inexpensive.
These Pipes have been in use in France, Spain, and Italy nearly three years, where the demand for them is very great. The opinions of the press on a public test at the Houses of Parliament before a large number of Engineers and other scientific Gentlemen may be had, with further particulars, at the Office of the Company on application to
Mr. ALEXR. YOUNG,
67 Mark-lane, London,
Where Sample Pipes may be obtained for trial.

PRACTICAL AND THEORETICAL INSTRUCTION IN NAVAL ARCHITECTURE.

Having been frequently requested during past years to receive young Gentlemen to our Establishment for the purpose of instructing them in the Art of Designing and Building Ships, I have now given my nephew, Mr. BECK (who has been many years with me), permission to receive a limited number of Pupils under his care and tuition, and I shall be pleased to afford them all necessary facilities for acquiring a complete knowledge of Shipbuilding in all its branches.
JOHN WHITE,
Medina Docks, Cowes, Isle of Wight, 1860.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

SHIPS CLASSED A IN RED, AND Æ, INCLUDING THOSE WITH THE ASTERISK.
The Rules, Sections 60 and 61, requiring that ships classed A in red, or Æ (including those with the Asterisk) shall be surveyed annually, or on their return from every foreign voyage.
NOTICE is hereby given, that in accordance with the above Rules, and in pursuance of a Resolution passed this day by the Committee, the Characters of Ships classed A in red, or Æ (including those with the Asterisk), which shall not have been surveyed since the year 1859, will be omitted in reprinting the Register Book (in June next) for the year 1861-62.
By order of the Committee,
GEORGE B. SEYFANG, Secretary.
No. 2, White Lion-court, Cornhill, London, E.C.,
Nov. 8, 1860.

N.B.—In the case of Ships which it shall be made to appear, by letter addressed to the Secretary, have not been in any port in the United Kingdom since 1859, the above Resolution will not be applied.

JOSEPH ROBERTS, CONSULTING ENGINEER, MACHINERY AUCTIONEER, DRAUGHTSMAN AND MACHINERY AGENT,
7 Old Jewry, CHEAPSIDE, E.C.

Money Advanced upon Every Description of Good Security. Patented Inventions Bought. Several Valuable Patents for sale or Negotiation. Machinery of Every Description Purchased or Valued for Arbitration; Arrangements of Partnerships, &c.
Steam Engines, Engineers' Tools, and Machinery for Working in Wood, Iron, or Stone, for sale or exportation. Estimates, Specifications, Working and Finished Drawings made for the above; their Construction Superintended or Contracted for.

OLD INDIA-RUBBER OVER-SHOES, TUBING, PACKING, VALVES, &c., purchased by E. A. STEVENS and CO., Moor-lane, Fore-street, London. Wholesale Rag Merchants appointed agents for large towns.

HART & SON, MALLEABLE IRON-FOUNDERS, 4 Vine-street, York-road, Lambeth. Orders for Malleable Iron Castings executed within a week.

GEDGE'S PATENT METAL for Ships' Sheathing, Bearings of Railway Rolling Stock, or Fixed Bearings, Bells, Bolts, &c.—This Metal possesses nearly double the resisting strength of copper, is cheaper than "Muntz's" or Yellow Metal, and much more durable.—For further information apply to JOHN GEDGE and SON, Patent Office, 11 Wellington-street, Strand, London.

HENRY & RANGER, Agents and Contractors for every description of Engineering and Railway Plant and Stores, 163 Gresham House, Old Broad-street, London, E.C.

SILVER'S and HAMILTON'S PATENT MARINE & STATIONARY ENGINE GOVERNORS.
8 Exchange-square, Glasgow.

SMITH'S DEPOT for New and Second-hand Machinery, 204 High Holborn, three doors from Newton-street.

THE BEST and CHEAPEST TEAS and COFFEES in England are to be obtained at PHILLIPS and Co., Tea Merchants, 8 King William-street, City. A Price Current free. See also large advertisement in last number for each month of MECHANICS' MAGAZINE.

142 CHEAPSIDE,
NEOTERIC CUTTING, RHABDOLOGICAL FITS, TELESMATIC TASTE, MELLI-FLUENT COURTESY, and a COAT for a GUINEA. Trowsers and Vests at exceedingly Low Prices.
