THE NATIONAL COMPANY FOR BOAT BUILDING BY MACHINERY (Limited).

To be incorporated under the Joint-Stock Companies Acts, and Liability limited to amount of Subscription.
Capital £200,000, in 20,000 shares of £10 each; with power to increase. Ten shillings per share to be paid on application, and a further sum of 10s. per share on allotment.

TRUSTEES.
William Brown, Esq., Liverpool, late M.P. for South Lancashire, John Dillon, Esq., (Messrs. Morrison, Dillon, and Co.), Fore-street, Vice-President of the Society of Arts.

DIRECTORS.
Col. W. H. SYKES, F.R.S., M.P. (Chairman of the Hon. the East India Company), Chairman.

J. Kennedy Arthur, Esq., Somerset-street, Portman-square, Peter Graham, Esq., (Messrs. Jackson and Graham), Oxford-st. Harvey Lewis, Esq., M.P., Gosvenor-street, Chairman of the Universal Marine Insurance Company and Director of the National Bank.

Captain E. G. Tinker (Messrs. Grinnell, Tinker, and Morgan), Fenchurch-street.

Vice-Admiral Walcott, M.P., Eccleston-square.

Charles Whetham, Esq., (Messrs. Whetham and Sons), Grace-church-street.

GENERAL MANAGER—Captain John Vine Hall.

AUDITORS—P. Le Neve Foster, Esq., Secretary of the Society of Arts. (Another to be nominated by Shareholders.)

SHAREBROKERS.
London—Messrs. George Barnard and Co., 60, Lombard-st., E.C. Liverpool—Messrs. Samuel R. and E. Healey.

Scotland—Thomas Miller, Esq., 77, Princes-street, Edinburgh.

BANKERS.
The London and County Bank, Threadneedle-street, E.C.; the British Linen Company, Edinburgh, Glasgow, and Branches; the Bank of Liverpool.

SOLICITORS—Messrs. Ellis, Parker, and Clarke, Cowper's-court, Cornhill.

SECRETARY—George Grant, Esq.

Temporary Offices, 19, Bishopsgate-street Within, E.C., London.

This Company has been formed for the purpose of purchasing and working the several patents secured in this country by Mr. Nathan Thompson, marine engineer, of New York, for his process of building boats by machinery. Mr. Thompson, after many years of close study and the unremitting application of his mechanical skill, has perfected a system of the most simple and effective character for the construction of boats of every size and mould, which must, to a great extent, supersede the present mode of building them by hand labour, every part being prepared with the greatest accuracy and finish by machinery.

Full copies of the Prospectus, Forms of Application, with Appendix, containing copies of testimonials, as given at length in the "Times" and "Daily News" of the 17th instant (to which reference is made), will be forwarded on application to the Brokers, or to the Secretary, No. 19, Bishopsgate-street Within, E.C., London.

TO ENGINEERS, MACHINE-MAKERS, &c.—THE MANUFACTURER OF A NEW MACHINE (Patented), much superior to any other in the market, wishes to dispose of a share in his business. The business is well-established; demand unlimited. Address, Patentee, *Mechanics' Magazine* Office, 16, Fleet-street, E.C.

PUMPING ENGINES.—FOR SALE, TWO BRAM ENGINES, each of 25-horse power, with the whole of the machinery and pipes, lately in use in the engine-house of the Portsmouth Water-Works; consisting of air-vessels, two force-pumps, 13-inch buckets, two outside pumps, two nearly new cylinders, two new slides, and two boilers 30ft. long. To be removed by the purchaser. Price £210. Apply to E. Galt, Esq., Granada-road, Southsea; or to Mr. Bradbear, at the Water-Works Office, Landport, Portsmouth.

TO SHEFFIELD AND BIRMINGHAM MANUFACTURERS.—The Advertiser having invented and patented an improvement applicable to Candelsticks of every description (see *MECHANICS' MAGAZINE*, June 7, p. 381), is desirous of meeting with a Manufacturer to work it or otherwise.—Apply to R. B. G., Messrs. Davies and Hunt, 1, Searle-street, Lincoln's-inn-fields, where specimens may be seen.

ENGINEERS' TOOLS FOR SALE.—A Self-acting Slide and Screw Cutting Lathe, 7½-inch centre, 9 ft. bed; One ditto, 7-inch centre, 14 ft. bed; and One ditto, 10-inch centre, 14 ft. bed. Punching and Shearing Machines for 2, 3, and 4 plates. Shaping Machines, Vertical Drilling Machines, Bolt-screwing Machines, &c., &c. Can be seen at E. PAGE and CO.'S, Laurence Pountney-place, Laurence Pountney-hill, Cannon-street, E.C.

SUBMARINE AND OTHER TELEGRAPHIC COMMUNICATION.

MACINTOSH'S PATENTS.—Information respecting Licenses under these Patents may be obtained by applying to Messrs. ROBERTSON, BROOMAN, and CO., 16, Fleet-street.

The peculiar advantages arising from these patented inventions may be briefly summed up as follows:—

1st. Permanent Insulation.

2nd. Indestructibility from Atmospheric Influence and Tropical heat.

3rd. Perfect Protection of the Metallic Strands from Oxidation and Marine Insects.

4th. Security against Galvanic Influence from being in contact with Metallic Deposits in the Rocks in the Bed of the Ocean.

5th. No Insulation required on the Poles or Supports to Carry Land Wires.

GEOLOGY AND MINERALOGY.—Elementary Collections, to facilitate the Study of Geology, Mineralogy, and Conchology, can be had at 2, 5, 10, 20, 50, to 100 Guineas; also single specimens of Minerals, Rocks, Fossils and Recent Shells, Geological Maps, Models, Diagrams, Hammer, and the Recent Publications, Blowpipes, Acid Bottles, Microscopic Objects, Scientific Portraits, &c., of J. TENNANT, Geologist, 140, Strand. Practical instruction is given in Geology and Mineralogy by Mr. TENNANT.

WILLIAM PHILLIPS, London, Consignee of the EARL OF DUDLEY'S COAL and IRON. 25, Coal Exchange, City.

142, CHEAPSIDE.

NEOTERIC CUTTING, RHABDOLOGICAL FITS, TELESMATICAL TASTE, MELLIFLOENT COURTESY, and a COAT for a GUINEA.

Trowsers and Vests at exceedingly Low Prices.

FORREST & BARR, ENGINEERS and MILLWRIGHTS, GLASGOW.—Manufacturers of Patent Safety Derrick Cranes; Sawing, Planing, and Wood-working Machinery; High-pressure and Condensing Steam Engines; Grain Mills and Builders' Plant.

PATENT INDIA-RUBBER DRIVING BANDS, Vulcanized Gas Tubing, Garden Hose, Valves, Steam Packing.—MOSES, SON, and DAVIS, 21, Gutter-lane, Cheapside, Works, Bow-common.

BRICK and TILE MACHINES.—BULMER and SHARP'S PATENT MACHINES are guaranteed to make 25,000 bricks in ten hours. Before ordering any other see these at work. Illustrated Circulars post-free on application to WILLIAM BULMER, Corporation-road, Middlesbro'-on-Tees.

NOTICE.—THE PATENT BITUMINIZED PIPE COMPANY'S OFFICES are REMOVED from 67, Mark-lane, to 144, Cannon-street, E.C.

THOMAS WILSON'S BREECH-LOADING RIFLE.—MR. THOMAS WILSON having resumed the sole working of his Patent, begs to invite special attention to his NEW SERVICE RIFLES and CARBINES; also to his DOUBLE RIFLES and SHOT GUNS, which being constructed according to his recently-patented improvements, and under his own immediate inspection, he can confidently recommend to sportsmen and others, as combining in the cheapest and simplest form the most efficient, safe, and durable system of breech-loading arms ever introduced.

Orders, and all communications, to be addressed to the Patentee, 45, Church-street, Birmingham, where the Patent Rifles and every information as to cost and other details can be obtained.

TO ENGINEERS, CONTRACTORS, &c.—The New VITRIFIED CAST-IRON PIPES, combining perfect cleanliness and incorrodibility.—For particulars, apply to J. W. WILSON, Consulting Mechanical Engineer, 9, Buckingham-street, Strand, London.

WALCOTT'S IMPROVEMENTS in GAS-MAKING, Applicable for Large or Small Gas Works, Illustrated and Described in "Mechanics' Magazine," April 12th, 1861. Further particulars, apply to GEO. WALCOTT and CO., Consulting Gas Engineers, 24, Abchurch-lane, London, E.C. Monied Partner wished for Working Patent.

THE BEST and CHEAPEST TEAS and COFFEES in England are to be obtained at PHILLIPS & CO., Tea Merchants, 8, King William-street, City. A Price Current free. See also large advertisement in last number for each month of "Mechanics' Magazine."

GAS.—Another fearful explosion, near Halifax. This could not have taken place had one of HUGHES'S PATENT SAFETY ATLAS CHANDELLERS been used. All persons having gas fitted should therefore have the improved Atlas Chandellers fixed. Kept in stock by all gas fitters. A large stock always ready for the trade and merchants at the Atlas Works, 46, Hatton-garden.—R. H. Hughes.

BRICK AND TILE MACHINES. E. PAGE and CO.'S PATENT HAND-POWER MACHINES are the most simple and efficient extant. The cost is also considerably less than those of other makers. They will make from 3,000 to 14,000 per day, according to the size of the machine, and can be seen in operation, daily, at the Manufacturers', Laurence Pountney-place, Laurence Pountney-hill, Cannon-street. Price Lists forwarded.

TO THE SHIPPING INTEREST. TYSSEN'S PATENT SHIP'S LOG, OR SPEED INDICATOR.

With the Index on Board. No difficulty in fitting or placing it. Has been in use above two years.

Testimonials from Government, Admirals, and Captains, sent post-free, on application at the Manufactory.

35, IRONMONGER-STREET, ST. LUKE'S.

The Trade supplied by THOS. HEMSLEY, Nautical Instrument Maker, King-street, Tower-hill.

RAZOR WON'T CUT? Then use STEVENS'S RAZOR SHARPENER. Price 1s. By this invention a fine keen edge is imparted to the Razor instantly. Sent free per post for 14 stamps. Moore's Patent Scissors' Sharpener, price 1s., does away with the necessity of grinding, and is very effectual. Sent free for 16 stamps. Moore's Patent Knife Sharpener, price 2s., sent free for 30 stamps. Patent Scythe Sharpener, 2s. 6d., forwarded, not free, for 32 stamps. F. STEVENS, Patent Agent, 42, Howland-street, London, W.

INTERNATIONAL EXHIBITION, 1862.—THE TRADES OF THE UNITED KINGDOM, classified in the Order in which Exhibitors' Productions will be exhibited. To be had of all Booksellers, and at 45, West Strand, W.C. Price, 1s.

INTERNATIONAL EXHIBITION.—TO INVENTOR AND OTHERS.—JOHN WARNER, Asson. Inst. C. E. and Mechanical Engineer, undertakes the making of MODELS, Machines, and Apparatus of every description for Manufacturing and Scientific purposes.—72, Fleet-street.

INTERNATIONAL EXHIBITION, 1862.

TO INTENDED EXHIBITORS.—C. STEVENS and CO., Wood Engravers and Printers, 40, Essex-street, Strand, W.C. Engravers to this and other Magazines, are prepared to execute ILLUSTRATED CIRCULARS and CATALOGUES, in best rate style and very reasonable terms.—(See *Large Advertisement*.)

POLYTECHNIC.—FOR A FEW DAYS LONGER ONLY. MR. FREDERICK CHATTERTON'S Interesting Entertainment on the BARDS AND HARPS OF ALL NATIONS. No persons finishing their Musical Education should lose the opportunity of hearing this distinguished Harpist. The magnificent effects of L'ORIENT, an Eastern Tour, will shortly be succeeded by other entertainments. The ever-interesting East, with its scenery, costumes, music, and buildings, should be known by all interested in the great questions of the day. The other entertainments as per printed bills.

Polytechnic Institution (Limited), 90, Regent-street. JOHN S. PHENE, Managing Director.

TENDERS FOR IRON ROOFS.—The Directors of the CALCUTTA and SOUTH-EASTERN RAILWAY COMPANY (Limited) are prepared to receive TENDERS for about 1,000 LINEAL FEET of IRON ROOFING, 45 feet span. Copies of the drawings, specification, and form of tender may be had at MR. LONGRIDGE'S Office, 18, Abingdon-street, Westminster, on or after the 20th inst., for which a charge of Two Guineas will be made; and Tenders will be received not later than 11 o'clock in the Forenoon of 2nd July next, at the Office of the Company, 211, Gresham House, Old Broad-street, E.C., London. The Directors do not bind themselves to accept the lowest or any Tender.—By order of the Board of Directors, June 13, 1861. JOHN ANDERSON, Acting Secretary.

THE SCIENTIFIC AND ENGINEERING SCHOOL, AT THE COLLEGE, CHESTER.

This School is recognized by the SECRETARY of STATE for INDIA, "as possessing an efficient Class for Civil Engineering." Each Pupil is provided with a separate sleeping apartment.

Application for admission to be made to the Rev. ARTHUR RIGG, College, Chester.

SILVER'S and HAMILTON'S PATENT MARINE and STATIONARY ENGINE GOVERNORS

8, Exchange-square, Glasgow.
