

PART VIII.—CAINOZOIC OR TERTIARY PERIOD.

CHAPTER I.—GENERAL VIEW OF THE EOCENE OR NUMMULITIC GROUP.

	PAGE		PAGE
History	598	Eocene range	601
Denudation of the Chalk	598	Eocene subdivisions	602
Eocene strata	599	Historical classification of British Tertiary strata	603
Eocene flora and fauna	599		

CHAPTER II.—LOWER EOCENE STRATA—THANET SANDS, WOOLWICH AND READING SERIES, OLDHAVEN BEDS, AND LONDON CLAY.

Thanet sands	604	Fauna	607
Fauna	604	Oldhaven beds	608
Woolwich and Reading series	605	London clay	609
Conditions of deposition	605	Basement bed and its fauna	609
Range	606	Palæontology of the London clay	611

CHAPTER III.—MIDDLE AND UPPER EOCENE: MIDDLE BAGSHOT BEDS AND BRACKLESHAM SERIES.

Bracklesham beds	615	Freshwater beds	618
At Whitecliff bay	616	Bournemouth flora	619
Stratigraphical relations	616	Bracklesham fauna	619
Marine beds	617	Middle Bagshot beds; Barton clay	620

CHAPTER IIII.—OLIGOCENE STRATA.

The name "Oligocene"	621	Paris basin	625
Range of British Oligocene strata	622	Belgium and Germany	626
Bovey-Tracey beds	623	Switzerland and Central France	627
Oligocene fauna through four groups	624	The Headon series	628
Oligocene strata of the Isle of Wight	624	The St. Helens beds or Osborne series	629
Oligocene on the Continent	625	Bembridge beds	631
		Hempstead series	632

GENERAL TABLES of the ORGANIC REMAINS of the EOCENE STRATA	633-644
Summary of Eocene life	645

CHAPTER LIV.—MIOCENE STRATA.

History and range	646	India	648
Flora and fauna	646	North America	648
Mayence and Vienna basins	647	Life of the Miocene period	649
