

ἰδοῖσα δ' ὄξει' Ἐριννὺς
ἔπεφνέ οἱ σὺν ἀλλαλοφονία γένος ἀρήιον—

'—from the day when his doomed son met Laius and killed him, and accomplished the word given aforetime at Pytho. But the swift Erinnys beheld it, and slew his warlike sons, each by the other's sword.'

Here the Fury is represented as destroying the sons in direct retribution for the parricide, not in answer to the imprecation of Oedipus. A fragment of Pindar alludes to the riddle of the Sphinx, and he uses 'the wisdom of Oedipus' to denote counsel wrapped in dark sayings,—since the skill which solves riddling speech can weave it¹.

§ 5. The logographers could not omit the story of Oedipus ^{The logographers.} in a systematic treatment of the Theban myths. Hellanicus of Mitylene (circ. 450 B.C.) is mentioned by the scholiast on the *Phoenissae* (61) as agreeing with Euripides in regard to the self-blinding of Oedipus². The contemporary Pherecydes of Leros (usually called 'Athenian' since Athens was his home) treated the legends of Thebes in the fifth of ten books forming a comprehensive survey of Greek tradition³. According to him, Iocasta bore two sons to Oedipus, who were slain by the Minyae: but, as in the *Oedipodeia*, his second wife Euryganeia bore Eteocles and Polyneices, Antigone and Ismene. This seems to be the earliest known version which ascribes issue to the marriage of Iocasta with Oedipus.

§ 6. However incomplete this sketch may be relatively to ^{The dramatists.} the materials which existed in the early part of the fifth century B.C., it may at least serve to suggest the general conditions under which Tragedy entered on the treatment of the subject. The story of Oedipus, defined in its main features by a tradition older than the *Odyssey*, had been elaborated in the epics of later poets

Pindar's elder contemporary Corinna had sung of Oedipus as delivering Thebes not only from the Sphinx but also from τὴν Τευμησίαν ἀλώπεκα—a fox from the Boeotian village of Teumessus: but we hear no more of this less formidable pest.
