### SERIOUS COLLIERY DISASTER IN DURHAM.

*Westhurtlepool, October 15.*  
An explosion took place in a mine at Wingate today, owing to which 200 miners were buried. Of these 200 miners, 60 were working in that part of the mine where the explosion took place. Up to the present eight corpses have been recovered.

*London, October 15.*  
It is now reported that 27 persons have lost their lives in the Wingate colliery accident.

*Wingate, October 15, 4 p. m.*  
The explosion was of terrible violence. Fortunately however, it took place at an hour when only a small percentage of the miners were underground. From the narratives of survivors it appears that wonderful deeds of heroism took place, many miners giving up their lives to save their comrades. Several members of the Labour Party in Parliament took part in the work of rescue. A large crowd is gathered at the pit mouth; up to the present 30 corpses have been brought to the surface.

*London, October 15, 6 p. m.*  
According to the latest news received from Sunderland there is some hope that all those imprisoned in the mine may yet be released from their terrible situation. Up to the present 80 men have been brought up alive, but many are unconscious and in a dangerous condition. Those who have been saved declare that fresh air is finding its way into that part of the mine where the men are imprisoned, so that they can hold out until they are rescued.

### THE BRITISH NAVY.

The *Tribune* and *Daily Chronicle* publish similar statements.

Nearly all these officers belonged to the military train.

of large crowds, to the Elysée Palace where President Fallières, surrounded by the Ministers, welcomed the party and expressed the good will of all France to England. At the banquet which followed the reception the President toasted King Edward, the English nation, the Lord Mayor and the city of London. The British Ambassador proposed the health of the President and the French Government.  
In the evening the Lord Mayor and those with him attended a large banquet given in their honour by the municipal authorities. Many toasts were exchanged, in which allusion was made to the friendship and good relations existing between France and England, relations which are a guarantee of the peace of the world. ### THE MARRIAGE OF FRÄULEIN KRUPP.

*Essen, October 15.*  
The marriage of Fräulein Krupp with Herr v. Bohlen today was honoured by the presence of H. M. the German Emperor who at the wedding breakfast made the following felicitous speech:

"Honoured Couple! The wishes and prayers of all present, for your prosperity, surrounded you in church and will accompany you on your way through life. For many a young couple of whom the man is not in an official position or in any particular profession, the answer to the question, how they intend to order their lives, is not as easy as it is for you. If they are serious individuals, they will strive to benefit and advance the interests of their fellow-men, of the community to which they belong, and thus also of the State. It is, however, a peculiar phenomenon that young people of today, by bringing into especial prominence the individual Ego, strive to make this Ego the central point of their existence, and are eagerly desirous of laying stress on the rights belonging to them and of procuring for those rights unlimited efficacy and recognition. One thing, and that too the most important they forget viz. that rights imply duties. Without duties no rights are conceivable. Rights without duties lead to license and licentiousness. We have just come from church where we heard of Him who could claim the highest position in the world as the Son of God, but whose whole life was consecrated to the fulfilment of duty, the labouring for his fellow-men. May your whole life be filled and dominated by what our greatest and most clearheaded thinker, Kant, once called the "categorical imperative" of duty. To you, my dear Bertha, God has given a wonderful sphere of action, to live for your work-people and their families. When you walk through the Works, may every workman lift his cap to you in loving gratitude, and welcome in you the daughter of their much honoured dead master, the good genius of the Works. When you enter the workmen's homes may their wives and children see in you a beneficent fairy who drives their tears away, mitigates their distress, lightens their burdens and helps them to bear their sorrows. And from your influence, my dear von Bohlen, may there arise joy in labour, progressive development with a clear aim in view, and results corresponding to the most modern demands in accordance with the fundamental principles of the founder of these Works. May you succeed in maintaining the Works at that pitch of excellence which they have already attained, while continuing to supply to our Fatherland weapons for offence and defence which in their manufacture and efficiency have been equalled in the Works of no other nation. May the word "Duty" stand in golden letters on the door of your home, and may your fulfilment of that duty be lightened by the holiest feeling that there is on earth, namely the ability to work for the welfare of our fellow-men. In this may you be helped by our loving God, and the blessing of your enlightened father, my loyal and beloved friend, who looks down on us today from the realms of light, will be your invisible companion. The friendship which from childhood's days united me to him, I most gladly convey to you both, and, so far as I may, I will stand loyally at your side. To all else that moves our hearts we will now give expression by raising our glasses and drinking to the prosperity of the young couple." To mark the occasion of their marriage Frau von Bohlen and her husband have given a sum of

one million marks to the Sick Fund of the Krupp Works. The bride's mother has given another million marks to form a Fund by which houses can be built for the poorer workpeople; at the same time she has given a large plot of ground for the same purpose.

Colmar, October 15.

The District President Prince Alexander zu Hohenlohe has handed a request to be allowed to resign, to the Imperial representative.

M. Villiers, the editor of the *Temps*, has had an interview with Prince Alexander zu Hohenlohe in Colmar. The Prince informed him that his written request to Herr von Lucanus begging for an interview was refused, with the remark that an interview would be useless, the matter must take its course. The Prince continued: "Of this decision I informed the Imperial Chancellor by word of mouth on Sunday. I left him with the conviction that I have lost the Emperor's confidence. The Imperial Representative has placed my request to be allowed to resign before the Emperor. His reply has not yet been received, therefore I am pledged to silence. At a fitting moment, untroubled by attacks in the press, I shall endeavour to justify my action. For the present I shall not say another word."

The reports of the recent interview of the Prince of Bulgaria with Nedship Pasha were one-sided. It is said that the Prince gave loyal and quieting assurances, but at the same time made serious protest against the misdeeds of the Greek bands against Bulgarians, and demanded the abolition of the permanent exceptional measures taken by Turkey against Bulgaria.

The Porte has recently renewed its protests in Athens and at the local Embassies as to the undesirable nature of the Greek bands in Macedonia and moreover has called attention to the fact that fresh bands have, in the last few days, crossed the frontier.

### CURRENT TOPICS IN AMERICA.

(By letter dated October 2nd, from our New York correspondent.)

#### AMERICAN INTERVENTION IN CUBA.

Now that the military intervention of the United States in the "Pearl of the Antilles" is an accomplished fact, after having been regarded for weeks as unavoidable, the very definite question crops up, how long are the Americans to carry on the administration in Cuba? That the American Government at the moment has absolutely no idea of taking away from the Cubans for good and all their independence, although their first attempt at self-government has had so sorry an issue, Mr. Taft has stated in no ambiguous fashion in the proclamation, whereby a provisional American administration was set up on the island. For according to the proclamation, this provisional administration is only to last until law and order have been restored and a new Cuban administration has been introduced. After the resignation of President Palma, due to stress of circumstances, the island lacked a responsible head, and American intervention became unavoidable. The idea of an annexation of Cuba is practically ignored now in the American press; rather it is the good result which the mission of Mr. Secretary Taft and his companion to Cuba has had, that is being commented on. By all his actions Mr. Taft has won the confidence of the Cubans, and that too, not least by the fact that he has repeatedly declared that his mission was limited to setting up the Cuban Republic again and starting it on the path to prosperity. The question as to how long the American troops will be retained at Cuba it is impossible for the moment to answer accurately. It seems, however, certain that they will be left for a year upon the island. The new elections may not take place before next June, at all events that is the opinion expressed in a communication received from Cuba today. And we may presume that American troops will not be withdrawn from the island until the Cuban Government is able to show that it is once more firm in the saddle.

The American troops in Cuba are at present under the command of General Funston, who is fairly well acquainted with Cuban conditions, since he served in the "champions of liberty" when the island was still under Spanish dominion.

American intervention has already put an end to the destruction of property. Intervention became necessary when the Cuban rebels attacked the property of foreigners. The Federal Government undertook long ago to protect the interests of Americans and other foreigners in Cuba, in case the Cuban Government was not in a position to do it. The economic interests of the United States have made gigantic strides since Cuba was freed from the Spanish dominion, as have, to a certain extent, the other countries. As much as 200 million dollars of American capital are invested in the island, and there is also a large amount of English and German capital. The United States

take practically the whole of the sugar output of Cuba. In the last fiscal year the United States bought 60 million dollars worth of sugar, and imported Cuban tobacco to a value of over 13,000,000 dollars, while exporting goods to the value of 40,000,000 dollars to Cuba. About 54,000,000 dollars of American money are invested in Cuban sugar and tobacco plantations. The following figures as to Cuba's import and export from and to the United States show what serious consequences the last war had in the island for the development of its chief products and for foreign trade:

Fiscal year	EXPORT.		
	Sugar, dollars.	Tobacco, dollars.	Other produce, dollars.
1906 . . . .	60,000,000	11,598,000	84,979,000
1900 . . . .	18,243,000	9,807,000	31,371,000
1897 . . . .	11,982,000	4,277,000	18,406,000
1893 . . . .	60,637,000	11,727,000	78,706,000

  

Fiscal year	IMPORT.	
	Iron and steel goods, dollars.	Other imports, dollars.
1906 . . . .	9,879,000	47,763,000
1900 . . . .	3,713,000	26,513,000
1897 . . . .	437,000	8,259,000
1893 . . . .	6,691,000	24,157,000

#### A NEW BULLET FOR THE AMERICAN ARMY.

The American army in the near future is to be supplied with a new kind of bullet which has given great satisfaction at the national shooting trials at Sea Girt, New Jersey. The new missile is not rounded at the end, but gradually tapers to a point. It is one third lighter than the bullet at present in use. It has a greater initial velocity (up to 2,000 yards) and a greater power of penetration. The introduction of the new bullet will, it is true, make necessary an alteration in the breech of the rifle, but this can be effected at a small cost and in a very short time.

#### THE ROOSEVELT "BOOM".

The Roosevelt "boom" has been successfully launched. In spite of the repeated statements of the President, that he would refuse renomination to the Presidency—a statement frequently repeated by him with the greatest emphasis—a movement by which the President will be forced to once more be the standard bearer of the Republican party, in the next Presidency campaign, has begun in various States. The Republican State Convention of Missouri has directly challenged the President to accept re-nomination, which, in the view of the Republicans, would be tantamount to re-election. It has been repeatedly asserted that Mr. Roosevelt would be the only candidate who could defeat Mr. Bryan in case the latter is the next Democrat candidate. For the moment the Bryan "boom" is losing intensity and it is not yet absolutely certain that Mr. Bryan will be nominated Democrat candidate. It is true that a whole number of Democrat State Conventions have already endorsed him as candidate for the Presidency. The Democrats of the "Empire State" New York, who recently held their convention in Buffalo and who, in spite of the opposition of a large number of Delegates, nominated Mr. William R. Hearst as candidate for the Governorship, did, it is true, eulogise in their declaration of principles the democratic virtues of the former silver candidate, but they did not directly adopt him as their candidate. It is possible that the radical Mr. Hearst, who is himself aiming at the White House, may have "crabbed" the nomination of Mr. Bryan. Mr. Hearst has, it is true, declared that he will not be a candidate for the Presidency in 1908, but this assertion is not taken seriously. It is already considered possible that Mr. Hearst, even if he is defeated in the campaign for the New York Governorship—his chances of election seem very small, judging by the number of Democrats who are daily openly deserting him because he is too erratic, too socialistic and too radical for them—will none the less strive to be nominated, Democrat candidate for the Presidency and that he, in case Mr. Bryan and not himself is nominated, would once more work against the democrat party as he did after Mr. Parker's nomination two years ago.

#### A FEMALE CONGRESS CANDIDATE.

The Social Democrats in Fort Worth, Texas, have adopted Miss Laura B. Payne as female candidate for the House of Representatives. It is the first time that a woman "runs" for Congress in Texas. In the speech in which Miss Payne accepted the nomination, she, like Mr. Bryan, approved of the taking over of the railways by the State and even went a step further than the former silver apostle, in that she supported the nationalising of all the great slaughter houses.

#### AMERICAN MERCHANT NAVY.

Prizes to an amount of 1,000 dollars are offered by the "Merchant Marine League" of the United States for the best essay on the theme "How can our shipping trade in foreign countries be best extended." This subject has already occupied the attention of the President, Congress and American statesmen for decades. There has been no lack of suggestions for the extension of the American merchant marine, but none of these suggestions

have met with approval in high quarters. Two years ago, at President Roosevelt's suggestion, a committee of Congress embodied their proposals in a Bill which at present is peacefully slumbering in the committee for merchant marine and fishery matters of the House of Representatives. For years there has been a perceptible halt in the extension of the merchant marine.

## LOCAL.

The marriage arranged between Miss Margaretta Tiarks and Mr. Wilhelm Grothkop will take place at All Saints Church, Wiener Strasse, on Saturday, October 20th 1906 at 2 o'clock.

King Friedrich August arrived at 6 o'clock yesterday morning at Hamburg-Altona, and continued his journey to Cuxhaven in a special train placed at the disposal of guests invited to take part in the trial trip of the Hamburg-Amerika Company's new twin-screw steamer the "König Friedrich August".

## THE EVENING CONCERTS IN THE EXHIBITION PALACE.

In order to introduce variety into the daily concerts in the Exhibition building, which are now confined to string orchestral music, the services of some instrumental and vocal soloists have been secured for this month. On the evenings of Thursday the 18th and Friday the 19th instant Fräulein Margarete Schlemüller, of Berlin, a 16-year old violinist, will assist. On the 24th October Fräulein Türper, a youthful Dresden concert and opera singer, will sing some songs accompanied by Herr Carl Pretzsch. The prices of admission are unaltered.

## SONG RECITAL BY FRÄUL. ANNA SCHÖNINGH in the Palmengarten.

Fräulein Schöningh's programme last Monday night was an extensive one, being made up of choice songs by Schubert, Rückauf, Reinecke, Wolf and Draeseke. This recital was again another case of musical interpretative powers, in other words talent, and a poor quality of voice. Fräulein Schöningh sings with much taste and expression, and she has a very attractive stage presence. The Hugo Wolf songs were given with such dramatic expression that on almost forgot the shortcomings of the voice. Two exceedingly clever songs by Rückauf "All' meine Herzgedanken" and "Dann klopft nur ans Fenster" were sung with much charm of expression. Hugo Wolf's "Lied vom Winde" with its beautifully descriptive accompaniment was one of the gems of the evening. Herr Dr. Potpeschnigg played the accompaniments with much skill and care.—H. M. F.

The Management of the Central Theatre are preparing for an extremely interesting performance at an early date, having succeeded in engaging the pupils of Miss Isadora Duncan for one afternoon only. The children, who are of all ages will, on Wednesday the 24th instant beginning at 3.30 p.m. in a programme suited to their years, exhibit what they have been taught by their mistress. The prices will be at the ordinary evening rate. The date for the commencement of the advance sale of tickets for this performance will shortly be announced.

## CONCERT NOTICES.

Under the title "Die künftige Religion" (the religion of the future) the well known Nietzsche student Dr. Borneffer, of Leipzig, will deliver a course of three lectures in the hall of the Neustadt Casino, as follows:—the first on Wednesday October 24, on the theme "Nietzsche and the State philosophers as educators"; the second on Saturday October 27, "Nietzsche, or personal religion"; the third on Monday October 29, "Man as creator, the religion of the new heathendom". Dr. Borneffer delivered these lectures last winter to such crowded audiences that he arranged to repeat them, but has been prevented from carrying out his intention

until now. The third lecture will this time be followed by a free Aussprache. Tickets for these lectures are to be obtained from the firm F. Ries, Kaufhaus.

The Liederabend of Fräulein Paula Tullinger will take place on Thursday the 25th instant in the Palmengarten.

Lively interest is shown in the two concerts which are to be given, on the 23rd and 24th instant in the hall of the Waldschlösschen establishment, by Herr Johann Strauss jr. and his select Viennese orchestra. The programmes for the two evenings have been compiled with extreme care, and will include several novelties among which are compositions by the conductor. It may also be safely assumed that the famed "Wiener Weisen" (topical melodies) will again exercise their old charm.

## LADIES' HOCKEY CLUB.

The games will recommence at the end of this month, on the same ground as last year at Strehlen. Ladies desirous of joining the club are requested to send in their names and addresses as soon as possible to the Captain, Miss H. Mildred, Strehlener Strasse 78.

The guards in the city today are furnished by the Schützen Regiment No. 108. The band plays about 12.30 p.m. at the Schloss Platz.

### TAKING THE OFFICE-BOY IN HAND.

The American office-boy, who has long been the terror of his employers, is to be taken in hand by the New York Young Men's Christian Association. A training-school is to be opened for office-boys only, who will be taught not merely business arithmetic, the spelling of business English, commercial geography, and so forth, but various systems of letter filing, card indexing, the use of the telephone, mechanical manifolding, and various duplicating machines and general office work. These lads, the "Telegraph" says, will also be taught that personal appearance, clean faces, clean boots, clean hands, neatness of carriage and address, and politeness, are business assets.
