## COLONIAL CONFERENCE.

### ARRIVAL OF PREMIERS.

Dr. Jameson, Premier of Cape Colony, and Mr. F. K. Moor, Premier of Natal, arrived at Southampton on Saturday last from South Africa. Sir William Arbuckle, Agent-General for Natal, met Mr. Moor. This is Mr. Moor's first visit to England. He is a typical British colonist, and stands six feet two inches high.

Reuter's representative met the Prime Ministers of Cape Colony and Natal, who, with Dr. T. W. Smart, Commissioner for Railways and Public Works of Cape Colony, landed from the mail steamer "Kildonan Castle". Dr. Jameson, who is accompanied by his secretary, Mr. R. Southern Holland, was met by some members of his family, by Mr. Slingsby Nightingale, of the Cape Agency, who travelled from London to represent Sir Thomas Fuller, the Agent-General, and by Mr. Hawksley. Directly after landing, the Cape Premier and his party motored to the New Forest, where they will remain for some days.

The Hon. F. R. Moor, the Natal Premier, was accompanied by his daughter, and by Captain Richards, private secretary. Dr. Smart, who had with him Mr. F. H. Sargeant, his private secretary proceeded direct to Ireland, where he will spend some time before the meeting of the Conference.

Reuter's representative had an interview with Dr. Jameson. While declining to express an opinion as to what he considered would be the attitude of His Majesty's Government in regard to particular subjects which were down for discussion at the Conference, the Cape Premier said the Home Government, by summoning the Prime Ministers of its distant Colonies to this Conference, had given evidence of its intention to consider with all seriousness questions of national moment.

"The Colonies," continued Dr. Jameson, "on their part, with considerable inconvenience in some cases to their respective Legislatures, have answered this summons. With this mutual spirit, the people of the Colonies naturally look forward to practical results following the deliberations of the Conference."

Questioned as to the relative importance of the subjects put down for consideration, Dr. Jameson showed reticence, but pertinently remarked "There can be no doubt that two of the subjects are of supreme importance, and concern the future unity of the British people; firstly, the acknowledgment of the principle of reciprocal preference throughout the Empire, and secondly, the creation of an Imperial Council having a permanent status."

In reply to an inquiry by Reuter's representative, Mr. Moor, the Natal Premier, said: "The Natal Government has submitted no special subjects for the agenda of the forthcoming conference. I feel that this meeting of the representatives of the various parts of the Empire will bring about a better understanding of mutual interests and strengthen the bonds of Imperial union."

Sir W. Laurier, Sir Frederick Borden, and Mr. Brodeur expect to sail for London on April 5.

## NEWFOUNDLAND SEALERS.

### 150 MEN ADRIFT.

St. John's (Newfoundland), April 1.

Such grave anxiety prevails respecting the safety of the sealer "Greenland", which was reported adrift on the Grand Banks with 150 men on board and her propeller shaft broken, that the Governor and the Government have arranged that the coastal mail steamer "Postia" shall sail as early as possible to seek for the missing ship.

The sealer "Grand Lake's" crew say that a hundred of the Greenland's men tried to go on board the "Diana" on March 20, fearing that their own ship was not safe, but the "Diana", not having room for them, steamed away. They then tried to reach the steamer "Erik", but she was too far off, and it is believed that they returned to the "Green-

land". Competent observers think that the "Greenland" has drifted south towards Cape Race into the track of the ocean liners.

## RAYNER'S FATE.

London, March 30.

The sentence of death passed on Rayner, the murderer of Mr. Whiteley, has been commuted to one of penal servitude for life.

## PROGRESS IN AUSTRALIA.

### THE GROWTH OF AGRICULTURE.

Lord Northcote, the Governor-General, in opening the Royal Agricultural Show in Sydney, referred to the magnificent prosperity of Australia. His Excellency said he had travelled over a large portion of the continent and found everywhere, particularly in New South Wales, a feeling of satisfaction with the present and confidence in the future. He quoted figures showing that the value of the New South Wales wool clip had risen in 1906 to fourteen millions sterling. The butter output, which in 1902 amounted to 30,000,000 lbs. weight, in 1906 had risen to 57,000,000 lbs.; wheat, which was 16,500,000 bushels in 1905, amounted to 23,500,000 in 1906-7. In 1904 Australian wheat was quoted at from two shillings to three shillings per quarter better than the English product, one shilling and ninepence better than Argentine, and eightpence better than Canadian wheat.—Reuter.

## NEWS FROM AMERICA.

Rio de Janeiro, March 31.

A squadron consisting of the battle-ship "Riachuelo", the cruiser "Barroso", and the torpedo-cruiser "Tamoyo" have sailed from here under the command of Admiral Huet-Bacellar to represent Brazil at the Naval Review in Hampton Roads.

## NICARAGUA AND HONDURAS.

The New York correspondent of the *Globe* confirms the report that the Nicaraguan gunboat flotilla has bombarded the Honduran port of Amapala, in the Gulf of Fonseca, on the Pacific, the pretext being that the fugitive President Bonilla, of Honduras, has entrenched himself there with the remnant of his forces. It is stated that the town is now in the possession of the Nicaraguans, and that Bonilla was not among those who were taken prisoners. It is thought that, by this time he is safe on board a neutral steamer, en route to the U. S.

As far as Honduras is concerned, the war is practically over, as the capital of that Republic is in the hands of the Revolutionists, who have set up a Provisional Government which has already received the recognition of several of the Central and South American States. There may be some further fighting between the Nicaraguans and San Salvadorans, but this is not expected to be prolonged. Washington, without worrying over the merits of the various disputants, will be unfeignedly glad when the hostilities have been brought to an end, as there is an uneasy feeling at the capital that much of the bloodshed might have been averted had the U. S. Government displayed more firmness in the earlier stages of the dispute.

Washington, April 1.

Under instructions from the State Department orders have been telegraphed to the gunboat "Princeton" lying at Corinto, Nicaragua, and to the cruiser "Chicago" anchored in a port of San Salvador, to proceed without delay to Amapala in the Tigre island, Fonseca Bay, where it is said Señ. Bonilla, the ex-President of Honduras, is surrounded by Nicaraguan vessels of war.

## REMARKABLE BLOOD TRANSFUSION.

A touching instance of a husband's sacrifice in order to save his wife from certain death is recorded from Philadelphia. A lady named Mrs. Anderson had been slowly dying from anaemia. After consultation with the doctors, her husband decided to yield as much of his own blood as would be necessary to save her life. Accordingly Mr. and Mrs. Anderson were placed side by side on an operating table. A slit was made in an artery in the husband's arm, a tube was inserted and at-

tached to a pipe connected with a tube in the lady's arm.

Then the physicians began to pump blood from the husband's body into that of his wife, and ceased only after no less than two quarts had been thus transferred. Mr. Anderson was rendered very weak by the loss of such a great quantity of blood, but the doctors have just announced that, as the result of the husband's sacrifice, the lady will recover.

## NEWS FROM FRANCE.

### HONOUR TO A DEAD MAN.

It is reported that M. Pichon, the Minister for Foreign Affairs, will lay the cross of the Legion of Honour on the coffin of the murdered doctor M. Mauchamp.

### THE SULTAN OF MOROCCO'S FINANCES.

The newspapers publish a report from Tangier that the Sultan has obtained from an English house a personal loan amounting to fifty thousand pounds sterling.

### MGR. MONTAGNINI'S PAPERS.

An intimate friend of the deputy M. Doumer who embarked for America on Friday formally declared, with reference to the publication of the Montagnini papers, that M. Doumer had neither sent his work "The book of my Sons" to the Pope nor to Cardinal Merry del Val; the name Montagnini M. Doumer heard for the first time at the moment of the seizure of the papers at the late Nuntiature.

### INSUBORDINATION IN THE NAVY.

The case of insubordination on board the battleship "Valmy", reported in several newspapers, is confined to the following fact. Lieutenant Maurin, one of the officers of the ship, who had been sitting on the Committee for examining the proposals relating to the supply of officers to the Navy, left the Committee in consequence of a difference of opinion with the Commandant. He was awarded 30 days close arrest by the Naval Prefect. Lieutenant Maurin, who in other respects has done his duty hitherto, will, when his term of arrest has expired, be transferred to another ship.

## SOCIALIST CONGRESS.

Lyons, April 1.

At the meeting here today of the National Congress of the French Socialist Party, a resolution was adopted condemning direct action and a general strike as dangerous. A resolution in favour of the gradual mutual alleviation of military burdens but emphatically repudiating anti-patriotic sentiments that would undermine the right of defence against aggression from without, was also passed.

## NEWS FROM RUSSIA.

St. Petersburg, March 31.

The Chairman of the Monarchical party in Moscow protests decidedly against the assumption that his party were cognizant of the murder of Dr. Jollos. Alexandroff was formally committed for trial by the examining magistrate. The secret police has ascertained that Alexandroff and Lebedeff were agitators for the revolutionary party and had no connection whatever with the Right. Many arrests have been made.

The *Rjetsch* states that ten or twelve gunboats have been ordered for the Amur.

St. Petersburg, April 1.

(From a special correspondent.) The students in Moscow, in consequence of a political meeting in the University having been dissolved by order of the City Magistrate, have demanded that future political meetings of students in the University shall not be suppressed. The University will probably be closed till the autumn.

In the University of Kieff meetings of students of a revolutionary character have been held and the Professors have been threatened. The closing of the University is probable.

The Professors of Medicine in St. Petersburg complain of the ignorance and dishonesty of many of their assistants. Several of the examiners have received letters threatening them with death, from candidates who failed in their examinations.

St. Petersburg, April 1.

In the Imperial Duma the agrarian question is under discussion. After several members of the various sections had spoken, M. Karawajeff, of the Toil party, described the lamentable condition in which the Russian peasant lived as compared with

Finest handpainted Dresden China

A. E. Stephan 4, Reichs Str. 4

Succ. to Helena Wolzohn Necht. 2 minutes from Hauptbahnhof. Highest recommendations. Most reasonable prices.

that of the peasants in Germany, France, and Denmark. The former Minister M. Kutler, of the Cadet party, expressed himself in favour of compulsory expropriation of landed property with moderate compensation, and refuted the utopias of the extreme Left which he said were impracticable under existing political conditions. M. Dmofsky, a Pole, called for a complete reformation of the political régime previous to agrarian reform which, particularly in Poland, could only be carried out by a national parliament. Many members have yet to speak on this subject. M. Stolypin, the Premier, and Prince Wassiltshikoff, the administrator of the Ministry of Agriculture, were present during the debate, in the course of which Prince Wassiltshikoff said the Government were convinced that the poverty of the people would cease when agriculture was made the head and front of all land questions in the State. The principle of the inviolable ownership of the soil would be maintained by the Government, because real ownership was the only foundation for the profitable work of farming.

Up to the evening 18 members had spoken, out of 115 who are on the list of those intending to take part in the debate on the land question. The Duma resolved to devote Mondays to this question until further notice. Tomorrow the debate on the Budget will begin; the Finance Minister, M. Kokoff-zoff, will explain its provisions.

#### THE MOROCCAN CRISIS.

Tangier, March 31.

The Secretary of Mohammed el Torres, the Sultan's representative here, has left for Marakesh, to convey to the Governor of that town the following order: "If the Europeans wish to leave Marakesh and to return to the coast the Maghzen is to furnish them with an escort; if they prefer to remain in the town the Governor shall give them a guard".

Lalla Marnia, March 31.

A detachment, two companies strong, ready for active service, has arrived as a reinforcement for the column of occupation in Udja, where the French flag is flying. Colonel Reibel has taken over the administration of the town. Yesterday a parade of the troops was held by General Liautey, in the presence of a crowd of the natives. A heliographic station has been erected connecting Udja and Lalla Marnia.

Udja, March 31.

The French flag is hoisted only in buildings in which troops are quartered and in the camp. Yesterday the Caid from the country round Udja came of their own accord into the town to assure the military authorities of their submission and to offer their services.

Lalla Marnia, April 1.

General Liautey has requested General Delanneau, commanding the subdivision Tlemcen, to come to Udja for a consultation. General Liautey is returning to Oran, and General Delanneau will succeed him in Udja.

Paris, March 31.

The *Agence Havas* reports from Udja that a battery of Artillery and a squadron of Spahis have left that town for Lalla Marnia, there to remain till further orders. The French Consul is expected in Udja.

London, April 1.

The *Daily Telegraph's* correspondent in Tangier reports that, from the last letter received from Marakesh and dated March 23, the situation there appeared to be serious, as the natives were again showing signs of uneasiness. The English Vice Consul had proposed that all Christians should address a collective note to the Maghzen, calling for protection and the restoration of order.

#### THE UNREST IN ROUMANIA.

Bucharest, March 31.

The situation in Moldavia continues to improve, in Wallachia also there is a marked change for the better. The principal bands are destroyed; where troops appear, the rebels deliver up their leaders, hand over their plunder, and beg for mercy. The Reservists who had been called up but had joined the bands are returning to their regiments. All is quiet in the districts of Braila, Gori, and Jalomita.

Bucharest, March 31.

Disorders are reported from Putna, in Moldavia. Various instances of plundering, fighting, and incendiaryism are said to have occurred in Wallachia. In Langa Patulele a number of peasants have been killed or wounded in the encounters. In Galicea, the focus of the revolt, all the leaders of the movement have been captured. The communes Hurezani and Pegeni are in full revolt, and military have arrived there. The districts Vlasca, Coverlin, and Romanata are perfectly quiet. Many of the leaders have been arrested.

Snow has fallen throughout the whole country, and all railway communication is consequently stopped. Inundations are reported in some of the Danube districts.

Bucharest, April 1.

No further outbreaks are reported. Quiet everywhere prevails. The Prefects are taking note of the complaints of the peasants, and obtaining

far-reaching concessions from landlords and tenants alike. Perfect tranquillity prevailed yesterday here.

Sofia, March 30.

According to official Bulgarian figures the number of refugee Roumanians Yews and tenants who have fled into Bulgaria does not exceed 200; most of them have already returned to Wallachia.

#### TO CROSS THE ATLANTIC IN FOUR DAYS.

Mr. Lewis Nixon, the marine architect, who has designed several ships for the American Navy, announces (the *Tribune* states) that he has obtained the patents for an engine which he believes will reduce the voyage across the Atlantic to four days. The engine is of standard type, the motive power being supplied by gas obtained from crude petroleum. He explains that the first vessel designed by him to cross the ocean in four days by means of his engine will be a torpedo-boat destroyer of 650 tons and of 12,000 horse-power. Her machinery will have a weight of only 210 tons. This destroyer is supposed to have been ordered by the Russian Government.

#### WRESTLING GIRL BEATS HER FATHER.

Mr. W. L. Innes, of Chicago, is regretting that he challenged his daughter Iona, aged nineteen, to wrestle. The girl was home from college, and had boasted of her physical prowess, which she said was the result of playing basketball for the Rensselaer College team, the champions of Indiana. In three minutes the father was thrown. The physicians found that one of his legs, the *Mail* says, was broken, and his kneecap split. He is in hospital.

#### GENERAL NEWS.

(From our London correspondent.)

Whereas Queen Alexandra and Princess Victoria will, according to latest arrangements, proceed at once to Marseilles, the Empress Marie Feodorovna will return to St. Petersburg.

King Edward, who has thoroughly enjoyed his holiday at Biarritz, has become marvellously popular there and never loses the slightest opportunity of showing how much he has appreciated the place.

In order to evince his liking for football, the Prince of Wales arranged to be present at Aldershot on Monday, with the Princess, at the final tie of the Army Association Cup. The Princess presented the cup and medals at the conclusion of the match. The teams competing were the Depot Battalion Royal Engineers from Chatham and the Second Bedfordshire Regiment from Tidworth.

On the golf links at Biarritz, when the final match for the King's prize was being played between the Hon. Denys Scott and Mr. G. Allis, an American player, King Edward walked round and watched the game over the last few holes. He witnessed the deciding stroke of the game, Mr. Scott being the winner by two and one to play, after holing a long put on the seventeenth green. The Grand Duke Alexander was beaten by Mr. Allis in the opening round of the contest. Miss Johnson beat Miss Glazebrook in the final for the King's prize for ladies.

Easter was spent by Prince and Princess Alexander of Teck with the Duchess of Albany at Esher, their little daughter, Princess May, being with them.

The Grand Duchess Marie of Saxe-Coburg (Duchess of Edinburgh) is expected with her youngest daughter, Princess Beatrice, to spend a portion of the season in London, and may arrive in the latter part of May.

Mr. Haldane has been spending some days at Ilmenau, where he is staying with the object of taking the cure.

The birthday of Prince Henry, the third son of the Prince and Princess of Wales, was celebrated at Windsor on Sunday. The Prince was born at Sandringham and is seven years of age.

A betrothal is announced between Miss Victoria Eugénie Wood, youngest daughter of Sir Evelyn Wood, and Mr. John Hubert Balfour of the Moor Hall, Harlow. Miss Wood's mother has been dead now about sixteen years; she was a sister of Lord Southwell.

Several fashionable marriages are fixed to take place this month in London, amongst them being that of Miss Dudley Ward to Captain Godfrey Faussett, R. N., at which the Prince and Princess of Wales will be present. The honeymoon is to be spent in Spain.

Lady Minto arrived at Marseilles from India with her two elder daughters and youngest son, on Saturday. The Countess, with Ladies Eileen and Ruby Elliot, will attend all the Court functions of the present season.

After all, the meeting between King Edward and the King of Italy may not take place in Italy, but will possibly be arranged in the Levant when King Victor Emanuel leaves Athens on April 18 or 19. King Edward will then be at Catania, but the meeting may be at Spezia, when the launching of the battleship "Roma" will be witnessed by the King and Queen of Italy.

Dr. Jameson, the Premier of Cape Colony, and his colleague Dr. T. W. Smartt, Commissioner for Railways for the Colony, and Mr. F. A. Moor, Prime Minister of Natal, arrived at Southampton on Saturday morning. On his arrival the Cape Premier motored to the New Forest, but he comes to London on Tuesday to take up his residence.

With the abatement of the sea swell at the Lizard, operations were resumed last Saturday on the liner "Suevic", and great progress was effected. It was hoped that the work of cutting the vessel in two would be completed on Monday.

All the papers have been loud in their praise of the Prince of Wales, who assisted in freeing a horse which became entangled through an accident to a carriage at Windsor on Good Friday afternoon. The Prince and Princess were motoring along the same road, and when the accident occurred, the Prince alighted and very kindly rendered assistance.

Official denial has been given to the report circulated in England that King Alfonso is suffering from phthisis. This denial comes direct from Msgr. Rinaldi, the representative of the Holy See in Madrid.

The marriage of Miss Edna May to Mr. Oscar Lewisohn, the son of the American copper king, is to take place in June, but the exact date will not be made public, in order to avoid any public demonstrations. At the close of the run of "Nelly Neil", Miss Edna May will retire from the stage, and she intends making her home in England.

## LOCAL.

The Royal Picture Gallery has been enriched in the past year by seven paintings, of which five have been purchased by the State and two acquired by legacy. Two of the five were bought from the Uhde exhibition: "Die Trommler", of 1883, a picture that was in its time epoch-making for the triumph of the "new departure" in Germany but is today admired by connoisseurs of all schools; and "Die Sommerfrische", of 1899, representing in an arbour flooded with glowing sunlight—the master's three daughters, the youngest of whom is playing with a large dog. One of the purchases was made from the Bantzer and Ritter exhibition in the Arnold gallery; an old, sunny landscape in the Gebern Grund, by Professor Bantzer, the first of that artist's works as yet owned by the Royal Gallery, although he in some respects appears to be the leading exponent of the Goppeln landscape school in the nineties. The other two paintings purchased belong to those creations of the first third of the nineteenth century that acquired new importance through last year's *Jahrhundert-Ausstellung* in Berlin. One of them is a Salzburg landscape of 1807, by Julius Schnorr of Carolsfeld, who at that time was the Director of the Dresden Gallery; the other is a Magdalene, by Friedrich Georg Kerding, who at the time of his death in 1847 was Superintendent of Painting at the Royal Meissen porcelain factory, and is now for the first time enrolled among the masters represented in the Royal Gallery. The two pictures bequeathed to the Gallery by the recently deceased Frau Oberforstmeister v. Loeben are two portraits by A. Graff, the great Dresden portrait-painter of that day; they represent the then (1783) Count and Countess v. Loeben, and are worthy additions to the excellent Graff collection in the Gallery. Both these portraits of the XVIII century have found a permanent place in Room 32 on the ground floor. The other five paintings are for the present hung in the Rooms 42 and 43 on the ground floor, reserved for new acquisitions.

The last edition of the *Taschenbuch der Technischen Hochschule*, published by A. Dressel, academic bookseller, Bismarck Platz 14, gives a very good insight into the scientific life of that institution. A "chronicle", from the erection of the first "industrial school in connection with the Academy of Fine Arts" in 1814 to the present time, is followed by eight chapters, with portraits and very numerous full-page illustrations, describing the different departments or schools and their fittings: the Laboratory for electrical and physical chemistry, the electro-technical institute (with its spherical photometer, the "Dresdner Halb-Kugeln"), the architectural school and collection, the electric installation for all the new buildings, the institute for telegraphs and signalling, and so forth. There are also biographical notices of past and present Rectors and Professors, full particulars of terms and examinations, a list of the teaching Staff, of student corporations, and of the valuable scientific collections of which the students enjoy the advantage. The architectural collection is a particularly valuable one, consisting of 70,000 sheets and 5,000 drawings, including many of the period of Augustus the Strong. The price of the *Taschenbuch* is 1.8.

The guards in the city today are furnished by the Infantry Regiment No. 177. The band plays about 12.40 p.m. in the Schloss Platz.

### THE HIGHEST CHIMNEY IN THE WORLD.

Up to the present the highest chimney in the world, according to *Prometheus* (published by Rudolph Mückenberger, Berlin) was that of the *Halsbrücker Fiskalische Hütte* at Freiberg in Saxony, which was 459 feet high and erected in 1888 in order to carry off the noxious gases of the copper-smelting and sulphuric acid works. That will now be overtopped by a chimney which the Boston and Montana Consolidated Copper and Silver Mining Company is having built, also chiefly for the purpose of carrying the fumes of the smelting processes, which are injurious to vegetation, so high into the air that the land cultivation around will not be prejudiced. This chimney will be 506 feet high and 56 feet 6 inches in diameter at the top; it will be built by the firm Alphons Custodis, Chimney Construction Company, in New York, a daughter company of the *Aktiengesellschaft Alphons Custodis*, in Düsseldorf.

## ROYAL OPERA HOUSE.

This evening, beginning at 7.30, ending 10

Hoffmann's Erzählungen.

Phantastic Opera in three acts. Music by J. Offenbach.

Cast:

Hoffmann	Herr Rüdiger.
Nielaus	Fräul. Schäfer.
Nathanael	Herr Hafner.
Hermann	Herr Plaschke.
Lutter	Herr Wachter.
Olympia	
Giulietta	Frau Wedekind.
Antonia	
Coppelius	
Dapertutto	Herr Perron.
Mirakel	
Coehenille	
Pitichinaccio	Herr Erl.
Franz	
Spalanzani	Herr Kraemer.
Schlemihl	Herr Büssel.
Crespel	Herr Nebuschka.
A voice	Fräul. Eibenschütz.

PLOT. At a meeting of students, Hoffmann, one of their number is rallied on his gloomy temper. He declares he has been three unlucky in love, and promises to describe his love-affairs to them. In the Opera the three several episodes are presented in three acts.

In the first act Hoffmann is in the house of Spalanzani, having gone there to meet his host's beautiful daughter. This daughter is really an automaton made by Spalanzani and Coppelius, a wizard, who is to have a half share in the money to be made by the sale of the doll. Coppelius gives Hoffmann a pair of spectacles, which increase the beauty of the doll, and Hoffmann is madly in love with it, heedless of the warnings of his friend Niklas. A dance is held, and Hoffmann dances with the automaton, which dances on unceasingly, till Hoffmann sinks half-fainting upon the sofa. Coppelius enters in a rage, the draft by which Spalanzani had bought his half of the doll having been dishonoured, and smashes the figure. The guests all laugh at Hoffmann, who at last realizes the trick.

In the second act Hoffmann is courting Giulietta, a courtesan, who is in the power of Dapertutto, a wizard, for whom she has stolen the shadow of Schlemihl, another love. She promises to procure Hoffmann's image in a mirror. Telling Hoffmann that Schlemihl has the key of her room, she leaves them, Hoffmann kills Schlemihl, only to find the room empty, and the false Giulietta disappears with Dapertutto in a gondola.

In the third act Hoffmann is engaged to Antonia, daughter of Crespel, who has a beautiful voice, but is liable a consumption, so her father has forbidden her to sing. The deaf servant lets in Hoffmann, contrary to his master's orders. He and Antonia sing, and as Crespel returns Hoffmann hides and, from Crespel's conversation with the wizard, Doctor Mirakel, hears of Antonia's illness. He persuades Antonia never to sing again, but Mirakel, by invoking the spirit of her dead mother, induces her to break

## LATEST TELEGRAMS.

**Kiel, April 2.** The Russian battle-ships "Slawa" and "Cesarewitch" arrived in the harbour today.

**St. Petersburg, April 2.** The ice in the Neva is beginning to break up.

The *Rjetsch*, the organ of the Cadet party, publishes a letter received from the revolutionary organisation of the Irreconcilables, threatening the editors and the popular publicists of the Liberal Press with terroristic treatment, by order of the "flying fighting defenders", if they do not begin by the 12th of the month to support the revolution energetically. The *Rjetsch* says that the document appears from its general features to emanate from the same quarter as the threatening letter addressed lately to the Editor by the so-called True Russian People.

**Avignon, April 2.** At the Miramas station an automobile crossing the railway line was caught by the Paris express. Of the five persons in the automobile two were killed and the other three severely injured.

**St. Petersburg, April 2.** (From a special correspondent.) Yesterday afternoon, as an elegant carriage with a young gentleman and a lady in it was passing a policeman, the young man fired five shots from a revolver at the policeman and killed him. The murderer escaped but his companion was arrested; she is supposed to be a gymnasium student.

**St. Petersburg, April 2.** The lawyer Alexandroff and the labourer Lebedeff, who were in custody charged with the murder of Dr. Jollos, have been released today.

**New York, April 1.** The New York *Herald* publishes a report from Mexico that Hauptmann Thewalt, attached to the German Embassy there, had been severely hurt by a fall from his horse.

**Berlin, April 1.** The Roumanian Envoy has received telegraphic information from his Government that the restoration of quiet in Moldavia is making further progress. There are no fresh disturbances. In Wallachia all disorder has been put down.

**St. Petersburg, April 2.** Imperial Duma. The Minister of Finance, M. Kokoffzoff, in introducing the Budget, said that in general it would meet the requirements, but that supplementary budgets would be necessary for the War department, for the railways, and for the distress; he exhorted the Duma to examine the proposals of the Government quietly and practically, as a matter of financial policy and not of party politics. The Minister's speech was received in silence but without interruption.

**Innsbruck, April 2.** Many avalanches have fallen in North Tyrol during the Easter holidays; at Schönwies the highroad was blocked for a length of 100 meters, the bank of the river damaged, and the flow of water blocked. At Nassereith the road was covered for 70 meters in length, and a house was buried.
