Salons with all modern comforts, for ladies only.
Special hair treatment by electricity. Massage.
Telephone 10,049. Christian Strasse 32 Telephone 10,049.

GENERAL NEWS.

NEWS FROM ENGLAND.

ENGLAND FOLLOWS AMERICA'S EXAMPLE.
London, September 18.
The Morning Post publishes a report from its correspondent at Shanghai that Sir John Jordan, the British Minister at Peking, has been officially informed that the British Government intends to remit the rest of the indemnity due from China on account of the Boxer rising.

ENGLISH ACTRESS MARRIED IN BRUSSELS.
Brussels, September 18.
The wedding was solemnised on Wednesday at Christ Church—the chief Anglican Church of Brussels—of Miss Tita Brand, the well-known English tragedienne, daughter of the famous Wagnerian singer, Marie Brema, with M. Emile Cammaerte, a distinguished Belgian writer, author of a new version of "Tristan and Yseult."
The marriage was celebrated very quietly.

ALARMING TRADE PROSPECTS IN LANCASHIRE.
London, September 18.
The strike of the Lancashire cotton-mill operatives which has lasted for some time reached its climax today, when the term fixed for the acceptance of the employers' ultimatum expired. The spinning-machine workers at the last moment accepted the ultimatum, which involves a 5 per cent. reduction of wages from the 1st of January next, but the carding-room workers declined to accept it. As the spinning depends upon the carding, work cannot go on and will cease tomorrow; 150,000 people will thus be thrown out of employment.

NEWS FROM AMERICA.

THE AEROPLANE ACCIDENT.
Washington, September 18.
It will probably be six weeks before Mr. Orville Wright recovers from his injuries. Eye-witnesses of the accident say that the broken portion of the screw struck the rudder supports. The aeroplane did not turn over, but inclined to one side, the left. Mr. Wright tried to restore the equilibrium, but the next moment the machine plunged down and struck the ground with great force. Mr. Wright believes he could have landed safely if he had been fifty feet higher. A memorial is to be erected to Lieut. Selfridge on the spot where the accident occurred.

BAD BANKING METHODS.

According to the London Globe, the whole system of banking is at fault in the United States. There are even great European experts who have the temerity to allege that the mere elements of banking are not understood across the Atlantic. The panic of last year, which could not have happened in any other civilised country but America, certainly gives colour to the proposition. Perhaps the Commission which is now in

Europe studying banking methods may be able to provide the basis for a new law which may be effective. In the meanwhile, night-schools might be held in big centres like New York and Chicago for the benefit of bank presidents and other persons who are entrusted with the administration of large sums of money. Until American bank methods are modelled on European lines, such a crisis as that of last year is always liable to recur at short notice.

PERSONALITIES BETWEEN CANDIDATES.
The Presidential contest is now proceeding merrily, thanks to the constant interchange of personalities between Mr. Taft and Mr. Bryan. The former is said to be already feeling the heat of the pace set by the "Nebraskan," but he cannot falter as long as he has any physical strength at his command. Mr. Bryan does not show the slightest sign of weakening. The physical and intellectual energy of the man extorts admiration even from his political opponents. It is claimed that he has been gaining ground, but the evidence submitted in support of this sanguine view of the situation does not appear to be very convincing.

AMERICAN SUBMARINE'S RECORD.
New York, September 18.
A telegram from Newport, Rhode Island, states that the American submarine "Octopus," during her sinking tests yesterday, dived to a depth of 107 feet, and remained below the water for two hours. This constitutes a record for all navies.

MARK TWAIN ROBBED.
New York, September 18.
Mark Twain's villa at Redding, Connecticut, has been broken into by burglars, who carried off all the silver.

ELECTION IN CANADA.
Ottawa, September 16.
The general election for the Dominion Parliament has been fixed for October 26.

AUTOMOBILISM IN THE STATES.
New York, September 18.
It is announced that the differences between the Automobile Club of America and the American Automobile Association have been settled. Hereafter the two bodies will work harmoniously together. The former is the only American member of the International Association, and alone has authority to draft rules and sanction international races in America. Both agree to co-operate in the approaching races for the Vanderbilt Cup and the Savannah Grand Prize.

MILLIONAIRE'S GOLDEN WEDDING.
New York, September 18.
Mr. W. H. Singer, the famous steel manufacturer, has celebrated his golden wedding at Pittsburg. With the concurrence of his wife, the millionaire marked the occasion by dividing equally among his four children property valued at 16 million dollars. He and his wife, he declared, needed no great sum

to keep them in comfort for the remainder of their lives.

DISASTROUS CANADIAN FOREST FIRES.
Frankfort o. M., September 18.
According to a report published in the Frankfurter Zeitung, from Montreal, great damage is being done by forest fires in the province of Quebec. Many villages are in danger, and the navigation of the St. Lawrence river is rendered impossible by the smoke.

NEWS FROM FRANCE.
PRESS COMMENTS ON PRINCE BÜLOW'S SPEECH.
Paris, September 18.
Prince Bülow's speech to the Interparliamentary Conference at Berlin is discussed in many of the newspapers. The Aurore remarks: "Such utterances from a high personage can only be welcomed with satisfaction. We all entertain the ardent wish for peace and union. No question could supply a more serious test of this firm desire for peace than the Franco-Spanish Note. May those who have to reply to the Note be animated by that idea!" The Lanterne says: "The speech of the Imperial Chancellor gains in importance from the present political circumstances. Kaiser Wilhelm expressed at Strasburg and Colmar his strong desire for the maintenance of the peace of the world. After those demonstrations it could hardly be assumed that the German Government thinks of bringing about international dissension." The Petite Republique writes: "We are glad to note the friendly words of Prince Bülow. They do not, perhaps, quite accord with the recent acts of German diplomacy, but we must hope that in future words and acts will be in harmony."

THE CHOLERA IN RUSSIA.
St. Petersburg, September 18.
From noon yesterday until noon today there have been 392 fresh cases of cholera in the city, and 125 deaths from cholera have occurred. The total number of cholera patients is 1,061. Since the beginning of the epidemic 1,669 persons have been attacked in St. Petersburg, and 488 have died of the disease. The schools have been closed for six weeks, and some of the school buildings are used as hospitals. Many foreigners are leaving the capital.

A WHITE TIGER.
From a French source we learn that a beautiful white tiger has been killed in Assam, and that in due course it will be placed in the Museum at Calcutta. The animal was found in this way. Two native hunters came across some white hair, from which they concluded there had been a fight between two animals. Proceeding they found a dead buffalo, and a short distance away, stretched in the grass, a great animal of snowy whiteness. A well directed shot killed the beast, and on getting at close quarters it was found to be a magnificent white tiger.
