GREAT STRIKE IN PROSPECT.

Glasgow, July 9.
The Executive Committee of the Scottish Coal Miners' Union has recommended a strike, when the term for the existing rate of wages expires.

London, July 9.
It appears that the recommendation issued by the Executive Committee of the Scottish Coalminers' Union in favour of a strike, to begin on the 28th instant, is dependent on the possible proclamation of a general strike throughout the whole of England and Scotland. The question is to be brought before a meeting of the English Miners' Federation on the 15th instant.

PROGRESS WITH TARIFF BILL.

It is announced by the New York correspondent of *The Globe* that President Taft will hasten his return to Washington from the Champlain celebrations, in order to be at hand when the Tariff Bill is ready for his signature. The Conference proceedings have not revealed any unsurmountable difficulties in the way of this happy consummation, and Congressmen are blithely packing their trunks, ready to get away from the enervating heat of the capital and wearying work of the special Session at the first possible moment.

The proposal for the establishment of a special Customs Court has gone through practically without opposition, and the tax on corporation profits has not suffered much, Senator Aldrich making concessions at the last moment, which he had all along been prepared to do, if the need should arise.

Washington, July 7.
The Senate today adopted an amendment to the Tariff Bill under which the holdings of companies are included in the clause providing for a tax upon corporations.

The Senate agreed that the final vote on the Bill should be taken tomorrow.

TARIFF REVISION IN CONGRESS.

Washington, July 9.
The Tariff Bill has been referred to a joint Committee of the Senate and House of Representatives, in consequence of the amendments made in it by the Upper House.

THE FLIGHT ACROSS THE CHANNEL.

Calais, July 9.
The men employed in the construction of Mr. Latham's aeroplane received instructions to expedite their work as much as possible, and to work the night through. Latham hopes to undertake his flight across the channel this evening.

THE CHAMPLAIN CELEBRATIONS.

MR. TAFT REVIEWS CANADIAN TROOPS.

New York, July 8.
Speaking at Plattsburg yesterday, in connection with the Champlain celebrations, Mr. Taft said an enlargement of Federal power would possibly be necessary in the future, but he relied upon the present Constitution to deal adequately with reforms. America was the most conservative country in the world.

The President afterwards reviewed a body of Canadian troops, and expressed great satisfaction that they should be marching under a colonel who was by birth an American. He praised the men, and predicted a great increase of neighbourly feeling with Great Britain.

SPEECH BY MR. BRYCE.

Plattsburg (New York), July 7.
The Champlain Tercentenary Committee gave a dinner this evening in honour of President Taft. Mr. Bryce, the British Ambassador, responding to the toast of the British Empire, urged that the great men of this earth should be appealed to to influence the promotion of peace and goodwill among nations. A renewal of strife, he said, need not be feared among the three nations which had joined in that celebration. France, Great Britain, and the United States were linked by what he believed would be enduring friendship.

Among the military organisations present at the celebration today were the Governor-General's footguards and 5th Royal Highlanders from Ottawa, the latter representing Canada.

THE CANADIAN MINING STRIKE.

Halifax, N.S., July 7.
Troops have been ordered to proceed to Glace Bay to preserve order among the miners who are on strike, and a military train with 500 officers and men and two machine guns leaves to-night. The situation has become more serious and many scenes of disorder have occurred, leading to the reading of the Riot Act.

Mr. Duggan, the General Manager, was assaulted by the strikers. They surrounded him, but he escaped without serious injury.

Half of the Dominion Coal Company's men are working. The United Mine Workers are attacking the men of the local company who are members of the Provincial Workmen's Association. The striking organisation is American, the other purely Canadian, and there is bitter feeling between the two bodies. Both sides still claim to be satisfied with developments.—Reuter.

REVOLUTION IN COLOMBIA.

We have received the following letter from one of our esteemed readers:

TO THE EDITOR OF THE DAILY RECORD.

Dear Sir,

In reference to a telegraphic dispatch published in your issue of Friday, July 9th, under the heading of "Revolution in Hawaii," I should like to be permitted to point out that Hawaii (Hawaiian or Sandwich Islands), is at present a Territory of the United States, situated in the north Pacific ocean. Being a Territory, it has no President Reyes, or any other President, and there is no place by the name of Colon in the group. A revolution has probably taken place at Colon or Aspinwall, on the west coast of Panama, about five thousand miles from Hawaii.

Yours etc.

M.

We are much obliged to our esteemed correspondent for drawing our attention to a mistake in last Friday's issue. As the heading of this paragraph shows, the revolution has broken out in Colombia, and the error in the issue above referred to was only a clerical one. We are, however, greatly indebted to our correspondent for his gratuitous instruction in geography, superfluous as we hope it will seem to the remainder of our readers.

New York, July 8.
According to reports received here from Colombia via Panama, the situation in the Republic is serious. The department Cauca is in a state of ferment, and it is believed that the whole of Southern Colombia will be in arms in the course of the next few days.

DEATH OF TWO STATESMEN.

Lemberg, July 9.
The former Minister-President Count Badeni suffered a stroke and died here today.

London, July 9.
The Marquess of Ripon, former Viceroy of India, died today.

George Frederick Samuel Robinson, 1st Marquess of Ripon (cr. 1871) was born in London, 24. Oct. 1827. He was Governor-General of India from 1880 to 1884.

THE CHOLERA IN ST. PETERSBURG.

St. Petersburg, July 9.
The number of deaths from cholera in the last 24 hours has been 53, the number of fresh cases 107. The number of cholera patients under treatment is 721.
