KING EDWARD'S VISIT TO MARIENBAD.

London, July 16.

Reuter reports that King Edward will leave Eng-
land for Marienbad after the Cowes Regatta week,
about August 13.

THE HOUSE OF LORDS AND THE BUDGET.

London, July 17.

At a meeting of Conservatives held yesterday the
Marquis of Lansdowne spoke on the contention set
up by the Liberal party, that the House of Lords
has no power to alter the form of the Budget.
Lord Lansdowne said it was inconceivable in a coun-
try with two legislative Chambers that it should
be left entirely to one of them to impose enormous
burdens on the nation by iniquitous taxation, and
to introduce a new system of taxation which aimed
at upsetting the existing order of society.

THE PRESIDENT AND CONGRESS.

Washington, July 17.

An official notification by President Taft that he
considers a reduction of the Customs rates absolutely
necessary has created a great sensation among the
Senators and the members of the House of Repre-
sentatives. Both Houses are convinced that the
whole influence of the President will be brought
to bear on the ultimate form of the Tariff Bill.

THE PANAMA CANAL.

Washington, July 16.

At a conference held yesterday at the White House
between President Taft, Senator Aldrich, and Mr.
Payne, a member of the House of Representatives,
it was resolved to insert in the Tariff Bill a clause
authorising the Secretary of the Treasury to issue
Treasury bonds to the amount of 397,000,000 doll.
to cover the whole cost of the Panama Canal.
The state of finances renders this measure necessary.

Washington, July 16.

At a meeting of the Cabinet today the subject
of the issue of Panama Canal bonds was discussed.
It was resolved that the rate of interest shall be
3% and the term 50 years; and that the whole
amount shall not be issued at once. It is even
hoped that a rapid change in the revenue condi-
tions may altogether obviate the necessity of the
issue.

SERIOUS STRIKE DISTURBANCES AT PITTSBURG.

Pittsburg, July 16.

In the disturbances that took place yesterday in
connection with the strike, 6 people were killed and
250 injured. The encounters between the police and
the strikers continue.

LADY CHARGED WITH SMUGGLING IN BOSTON.

Boston, July 16.

A criminal information has been laid against Mrs.
Chesbrough for attempting to smuggle a pearl neck-
lace valued at 20,000 dollars into the U.S.

THE CRISIS IN PERSIA.

Cologne, July 16.

The Kölnische Zeitung publishes a telegram from
Teheran, dated 5 p.m. today, as follows: "Colonel
Liakoff drove to the Medjlis this afternoon for the
final negotiations. Peace is concluded. The Persian
Cossack brigade will be retained. A new Govern-
ment will be formed, in which Sipahdar will be
Minister of War. He will at the same time be
Prefect of Teheran. In his new capacity of Minister
of War, he gave his first order to Colonel Liakoff
to restore order in the capital. The Shah has ab-
dicated, and a Regent will probably be appointed
for the Crown Prince Achmet Mirza. The inhabi-
tants are making joyful demonstrations."

Teheran, July 16.

Reuter reports that the first dragomans of the
British and Russian Embassies went this morning
to the Parliament and asked Sipahdar and Sar-
asad to inform them what treatment would be ac-
cording to the Cossack brigade. The Nationalist
leaders replied that the brigade would retain their
arms under the command of Colonel Liakoff, who
would be directly responsible to the Minister of
War. It was intended to unite the Cossacks with
the Nationalist troops, to maintain order in the
capital and disarm the populace who kept up the
firing.

Teheran, July 16.

When the Shah took refuge in the Russian Embassy
he was accompanied by his wife and the Heir to
the Throne. The Shah sent a telegram to the Tsar
of Russia, informing his Imperial Majesty that he
placed himself under his protection.

Teheran, July 16.

Reuter reports further that a National Assembly,
consisting of the leading members of Parliament,
many notables, and the Nationalist and military
leaders, met today at the Parliament building and,
in the presence of a great crowd, proclaimed the
Crown Prince Shah, Azad el Mulk Regent, and
Sipahdar Minister of War and Governor of Teheran.

A ROYAL DECREE.

Madrid, July 17.

The Gazeta de Madrid publishes a decree depriv-
ing the Infante Alfonso of Spain of the title of
Infante, because his marriage with the Princess
Beatrice of Saxe-Coburg-Gotha took place without
the King's consent.

THE EARTHQUAKE IN GREECE.

Athens, July 16.

Some of the fearful results of the earthquake in
the province of Elis are now known. In the village
of Havari 400 houses collapsed, about 30 people
were killed and many injured. The neighbouring
villages also suffered severely. In Amalios all the
houses were rendered uninhabitable. In Pouhioti
volcanic eruptions happened. The earthquake was
felt also in Patras, Pyrgos, Kalamata, Tripolis, and
Mesolongion; and in ten other places people were
killed and injured.

BERLIN

A remarkably bitter and prejudiced attack on the American Association of Commerce and Trade and its Secretary Mr. Atwood has been published in Berlin in a German trade paper, the *Deutsche Export Revue*. The article, which is calculated to rouse indignation in American as well as in better-class German circles, goes so far as to accuse the Secretary of the Association, Mr. Atwood, of seriously neglecting German interests during his propaganda trip to America, and promoting the interests of the American business world to the detriment of German trade.

"The Association has managed to secure as its members a long list of German firms," says the article, "on the strength of its statements that the organization furthers German interests in America as well as American interests in Germany. That these statements must be taken with a big grain of salt is obvious enough," the writer adds, "from Mr. Atwood's own incautious remarks at a luncheon given in his honour by the Boston Merchants' Association. The following little revelations which he made regarding the Association's objects are highly interesting, since they prove to us conclusively that if the Association represents both German and American interests, it is at any rate the American interests which invariably come first."

The article then dissects Mr. Atwood's speech as delivered at the Boston luncheon, and, printing it sentence for sentence, subjects each of his statements, reproduced in some cases in an entirely distorted form, to a paragraph of palpably unfair and prejudiced "criticism."

The *Daily Record* considers it superfluous to enter into any defence of the Association or of its Secretary. None is needed amongst American readers. The article referred to is, indeed, more worthy of contempt than indignation. It furnishes, nevertheless, a striking example of the unscrupulous methods employed in some quarters to poison the German mind against American business men and their motives.

Dr. Florence Ziegfeld, President of the Chicago Musical College, was in Berlin for a few days recently, leaving on Tuesday last.

His son, Mr. W. K. Ziegfeld, business manager of the Chicago Musical College, was also in Berlin a few weeks ago engaging artists for the school. Anton Förster and Alex. Sebald are to be placed at the heads of the piano and violin departments respectively.

Notable impresarios and musical directors of various kinds have been, indeed, almost as common as professors in Berlin this summer. R. E. Johnston and F. W. Haensel both paid their respects to the Kaiser's city a short time back. R. E. Johnston, who says that he is the most prominent concert-manager in America since the death of Wolffsohn, recently caused some sensation with his engagement of Maud Allan for next season at \$2,500 a night, and has since engaged Pepito Ariola at \$750 a night, to say nothing of Isadora Duncan.

F. W. Haensel, of the firm of Haensel and Jones, the well known New York managers, has also been prospecting in Berlin. Mr. Haensel, who is the manager of the Damrosch Symphony Orchestra, has engaged César Thomson, the famous Belgian violinist, for a series of appearances in America next season.

Mr. and Mrs. Arthur M. Abell, of the New York *Musical Courier*, entertained for Mr. Johnston and Mr. Haensel while in Berlin, and invited a coterie of distinguished artists to meet them.

Mr. M. H. Hanson, the well known New York concert manager, who made such a sensation in America with Ludwig Wallner recently, will make a flying trip to Berlin in a few days' time. Mr. Hanson has already engaged Busoni and Tilly Koenen for American tournees, and is now negotiating with other famous Berlin artists.

Bernard Ulrich, Director of the Lyric Theatre, of Baltimore, has been stopping in Berlin and has gone on to Munich and Paris.

Mr. Wm. C. Carl, of New York, one of America's most distinguished organists, has gone on to Marienbad after a short stay in Berlin.

Rev. Prof. Thomas Hall preached an excellent sermon on Sunday last at the American Church on "Cosmopolitan Religion," as illustrated in the services which John Calvin rendered to Church organization and human freedom.

Miss Caroline V. Kerr, of the Chicago *Musical Leader and Concert-Goer*, has returned from her several weeks' term of activity in the interests of that paper in London.

Mr. Allan Goldsmith, the son of Mr. and Mrs. Bernard Goldsmith of Berlin, has completed his year at Kenyon College, Ohio, and has now gone to Los Angeles to start summer work with an engineering party of the Santa Fé road.

Miss Lura Abell, the sister of Mr. Arthur M. Abell, is spending a two months' vacation near Interlaken, Switzerland. Miss Abell returns to Berlin on September 1.

The latest New York *Times* to hand brings the following, relative to Ambassador Hill's recent trip to Kiel:

Last Sunday, when the Kaiser's yacht "Meteor" fell hopelessly behind in the race, Ambassador Hill, who was on board, remarked to the Emperor:

"Your Majesty, I'm afraid that I've hoo-dooed you by the calming influence I exercise upon the wind."

"Well," responded the Emperor, as quick as a flash, "that is usually what American diplomacy does."

Another member of the party later repeated to the Emperor Dr. Hill's observation that he regarded himself as the Kaiser's Jonah in the race.

Quoth William: "I don't see any whales about."

A serious automobile accident happened on the Kurfürstendamm on Friday. In order to avoid a collision with another automobile, the chauffeur of one that was being driven fast along the Kurfürstendamm turned his steering wheel too much, and the automobile ran at full speed into a tree. The occupants, Herr and Frau Kranz, were thrown out, the former through the front window. His face was fearfully cut by the broken glass. Frau Kranz and the chauffeur escaped with slight injuries.

THE INTERNATIONAL WORKMEN'S UNION.

(DAILY RECORD CORRESPONDENT.)

New York, July 8.

The establishment of an International Workmen's Union is a scheme foreshadowed in a resolution lately adopted by the Executive Council of the American Federation of Labor; it will also be one of the principal objects kept in view by Mr. Samuel Gompers, the President of that Federation, who is now making a tour in Europe of some months' duration for the purpose of studying labour conditions in the countries from which America derives her immigrants. In the resolution referred to, the American Federation of Labor calls upon the Trades Unions of all countries to consider the proposal of forming an International Union for the protection of the rights and interests of workmen and for creating an international brotherhood and solidarity. A few months ago Mr. Gompers was found guilty of contempt of Court, but appealed against the decision. The case is still before the Appeal Court, and Mr. Gompers says that he will return to America in November, either to be present at a convention of the Labor Federation or to surrender to the authorities and take his punishment.

THE FRENCH NAVY.

Paris, July 16.

In the adjourned debate on the report of the Naval Committee of Enquiry, M. Thompson, the former Minister of Marine, complained that the Committee had failed to recognise the progress actually made in recent years. The blame attributed to the Navy department should be laid on the revolution in shipbuilding, which had affected all countries. If the Committee had found that Germany with a smaller expenditure had built a greater number of ships than France, that fact was due to Germany's having smaller costs of maintenance and being therefore able to devote all her energies to building. M. Thompson proceeded to point out that the excess of expenditure over the estimates for building the large cruisers was but small, and said that in 1911 France would possess two divisions of ships of equal power, that would be as strong as and better armoured than ships of the same class in other navies.

ACCIDENT TO A FRENCH AIRSHIP.

Comte de Nancy, July 16.

When the airship "Ville de Nancy" had completed 50 miles of her voyage from Paris to Nancy yesterday, a breakage occurred in one of the motors and a landing became necessary. Just as the ship touched earth, she was caught by a squall and one of the fans of her screw was broken off. Repairs are in progress, and it is hoped that a fresh start will be possible early tomorrow morning.

A BELATED PROTEST.

Constantinople, July 16.

The Persian Endjumen here has addressed an appeal to all the diplomatic missions, describing the Persian Nationalists' conflict with the Shah, the illegal occupation of the province of Azerbaijan by the Russians, the firing on the holy places of Meshed, and the advance of the Bakhtiari on Teheran; disapproving also of Russia's support of the candidature of Zill es Saltaneh, the Shah's uncle, for the Throne. The appeal holds Russia responsible for coming events, and expresses the hope that the legitimate claims of the Persian people will be respected by civilised nations; as, otherwise, Persia is firmly resolved to show the world the spectacle of the conflagration of all Persia.

We regret to learn that Princess Johann Georg has met with an accident, though it has happily proved to be slight. As her Royal Highness was taking an automobile drive in the neighbourhood of the Royal shooting lodge at Rehfeld on Friday morning, something went wrong with the automobile, and the Princess sustained an injury to the head. A doctor, who was at once summoned from the Carola Haus, pronounced the wound to be not of a serious nature. The condition of her Royal Highness is reported to be satisfactory.

Hofrat Dr. McBride received a cable despatch yesterday that his father, Mr. James McBride, of Detroit, Mich., has died. The deceased had attained the age of 83 years.

Judge Malcolm MacLear of Newark, New Jersey (son-in-law of Dr. Robert Grimshaw) has just reached Dresden after a trip through Holland, the Rhine district, and Bohemia, with his wife and son; and will take his family back to America next week.

The letter we recently published on the subject of mail transit between here and the United States under the cheap rate voiced a very general complaint. Nevertheless, the fact remains that if letters are posted here in time for, and specially marked for transmission by, the fast mail steamers from Bremerhaven and Cuxhaven they are duly forwarded by those steamers, and should reach New York in eight days at latest. To reap the full advantage of the cheap rate it is necessary to gauge the time of posting by the announced sailings of the express steamers,—that is, post them on the day previous to departure and mark them "Via Hamburg" or Bremen, as the case may be, and plainly write the name of the vessel on the envelope.

When mail matter arriving here is long delayed, it follows that the delay is due to careless posting on the other side. It is not enough to put a ten pfennig, or two-cent stamp on the letter and mail it promiscuously, to be transmitted by the first dug-out that may happen to loaf out of dock; it should be posted so as to catch the next fast steamer. Daily reference to the mail list which is an important feature of the *Daily Record* and the arrangement of your Transatlantic correspondence in accordance therewith will preclude any delay on this side. From the many complaints that we hear it is obvious that this simple system has not yet been generally tried.

We are, furthermore, frequently asked why we fix the latest hour at which letters may be posted in Berlin and Dresden at 1 o'clock p.m., since it often happens that a letter is still in time if posted in the evening of the same day. We fully appreciate that fact, but would point out that it would be a physical impossibility for us to publish the latest moment at which each mail closes, because they nearly all differ. The "one o'clock p.m." plan is, we believe, a sound compromise, and if a rule is made to mail letters at that time, you have the advantage of knowing for certain that you are in time. Any other practical suggestions in connection with our daily bulletin which may be put forward, however, will receive our careful attention, and be adopted by us if in the interests of our readers.

The XII. Pioneer battalion will be engaged this week in throwing military bridges across the Elbe at their place of exercise below the bend of the river opposite Mickten. The hours during which the exercises will be carried on are fixed as follows: tomorrow, Friday, and Saturday from 8 a.m. to 2 p.m.; tomorrow evening from 8 o'clock until an hour after midnight; on Wednesday and Thursday from 9 a.m. to 4 p.m. During these times dredging work will be going on above the Augustus Brücke.

The Ernemann Kino theatre in the International Photographic Exhibition has a new programme for the six days of this week up to Friday next, including films showing: a German school for native children in New Guinea; a tour "right across North America"; "Cowboy life in the Wild West" and, by way of sharp contrast, "Haymaking in the valley of the Elbe." The industrial series "From the blast furnace to the rollers," and one very humorous film in particular, "A rendez-vous in the air," added to some glimpses of the animal world, complete this interesting and amusing show.

The guards in the city today are furnished by the Infantry regiment No. 177, whose band plays about 12.30 p.m. in the Neustadt.

DRESDEN MUSIC AND ART NOTICES.

At the Grosse Wirtschaft in the Grosse Garten, concerts are given daily from 4 p.m. to 10.30 p.m. by the excellent House Band. On Sundays there is an early morning concert, beginning at 6 o'clock, in addition to the afternoon concert. On Wednesday and Friday this week the House Band will be assisted by a military band: on Wednesday by the band of the II. Field Artillery regiment No. 28, from Pirna; and on Friday by the band of the I. Field Artillery regiment No. 12. The programmes on these days will be doubled, and the music will be practically continuous.

In the art exhibition of the *Dresdner Kunstgenossenschaft* at the Künstlerhaus, corner of Albrecht Strasse and Gruner Strasse, the architectural designs of Herr Rudolph Vitzan—the author of the design for a new Chamber of Commerce in Dresden that won the first prize in a competition at the time and the architect who arranged the interior of the Künstlerhaus for the present exhibition—will be found interesting. Among them the designs for the church in Cotta, the Künstlerhaus at Berlin and the synagogue at Essen deserve mention. The house in the Anpa valley in the Riesengebirge is well suited to the surrounding scenery. The same may be said of the Children's Home in the same hill district. Herr Vitzan exhibits also several good models.

At the Ernst Arnold Gallery in Schloss Strasse several paintings by the late Professor Hamacher, whose death took place quite recently, are being exhibited. Special interest is lent to these pictures by the fact that the artist only a few weeks ago won the prize of the City of Berlin at the Berlin Exhibition and received the title of Professor. The Ernst Arnold gallery just now is well supplied with interesting objects.

A SIGNIFICANT RETURN.

Mr. Bellairs has asked the First Lord of the Admiralty how many ships of "Dreadnought" and "Invincible" types, or equivalent fighting powers, will be completed by April 1, 1912, for Great Britain, Germany, and the United States, assuming that each of the Powers will then have completed its 1910 programme, and how many battleships of pre-"Dreadnought" types will then be possessed by each Power which at that time are less than 10, 12, and 15 years' old respectively, from the dates of laying down, giving the total pre-"Dreadnought" battleships possessed, so that the total included among those less than 10 years' old will again be included in the totals less than 12 or 15 years' old.

Mr. McKenna, in a printed reply, has given the following table:—

	G Brit.	Germany.	U.S.
"Dreadnought" and "Invincible" types	16	13	8
Pre-"Dreadnought" battleships under 10 years	9	8	12
Pre-"Dreadnought" battleships under 12 years	14	12	13
Pre-"Dreadnought" battleships under 15 years	26	18	16

SCIENTIFIC FORESTRY.

The German Empire has nearly 35,000,000 acres of forest, of which 31.9 per cent. belongs to the State. German forestry on scientific lines has resulted in raising the average yield of wood per acre from 20 cubic feet in 1830 to 65 cubic feet in 1904. During the same period it has trebled the proportion of the saw timber secured from the average cut. And in 54 years it increased the money returns from an average acre of forest sevenfold, yet today the forests are in better condition than ever before.

TO CANADA.

Letters destined for Canada it is advisable to send by one of the New York steamers, as they are likely to reach their destination more quickly than if despatched by one of the direct vessels from Liverpool to Montreal.

SPECIAL NOTICE.

Letters for the above steamers should be mailed in the boxes at the station (Berlin, Lehrter Bahnhof; Dresden, Hauptbahnhof) or at the General Post-office at the time mentioned. Letters bearing a 10-pfennig stamp per weight of 20 grammes are only valid for transit by a German steamer sailing direct from a German port. They will not be sent by an English or French steamer.

As there are many of our readers who still appear to believe that letters despatched to America under the new cheap rate—10 pfgs. for 20 grammes, only by steamer sailing from German ports—are not forwarded by the express steamers, but are kept back for transference by "any old tub," we may state that, on the contrary, such letters are despatched by the first steamer on the schedule, be it an express or ordinary mail steamer. No distinction whatever is made, and full advantage of the cheaper rate may therefore be taken. Such letters may be sent by every steamer sailing from a German harbour (Hamburg or Bremen) which appears in our daily mail list.
