

I N D E X.

- ABSTRACT** of the Report of the Kew Committee, 459
Abozzo, 5
Abundance of silver, 180
Accessories, 5
Accidents which occur in endeavouring to obtain maximum sensibility, by M. Mc. A. Gaudin, 401, 421
Accidentals, 5
Accidental colour, 5
 — lights, 5
Acid, formic, in the developer, 251
 — gallic, as a preservative, 275
 — hydrocyanic, 410
 — hyponitric, 457
 — nitric, 455, 457
 — sulphuric, 457, 505
Action of light on bodies, by M. Edmund Becquerel, 7
Adherence, 28
Adjustment, 28
Adulterations and analysis of photographic chemicals, 5, 29, 50, 76, 97, 123, 146, 170, 194, 220, 243, 267, 289, 312, 337, 362, 384, 410, 435, 457, 483, 505, 529
Adulteration in paper, 276
Adventitious effects, 28
Aerial effects, 29
 — perspective, 29
Aesthetics, 29
Affinity of iodine, bromine, and chlorine, for silver, by Frederick Field, 581
Agreeable, 49
Agreement, 49
Aim, 49
Alabastrine solution, 537
Album portraits, 476
Albumen, coagulated, 33, 47, 59
 — negative process, 67, 87, 293
 — process, by M. Ferrier, 265
 — the compound, by Mr. Noton, 571
 — dry process, 11
Albumenizing paper on both sides, 429
 — difficulties in, 239
Albumenized paper and alkaline gold toning, by C. Jabez Hughes, 66, 77
 — and alkaline toning, 95
 — measles in, 369
 — positive printing on, by M. l'Abbé Pujo, 291, 302
 — prints, permanency of, 107
Albuminate of silver for Fothergill plates, 59, 203
Alcohol in developer, 489
Alkaline toning, 139, 202, 346
Almanac, Photographic News, 604
Alumina, salts of, 57
Allegory, 49
Amateurs Photographic Association, 229, 274, 369, 499
 — and professionals, 24
Amateur's, an, reply to R. A., 450
Amateur mechanics, a hint to, 11
America, photography in, 480
American Photographic Society, 215, 572
Anacamptics, 50
Animated, 59
Anaclastics, 50
Analysis of the iodides, by M. A. Gaudin, 41
Anamorphosis, 50
Anatomy, 75
Ancient camera landscapes, 297
Another ghost, 107
Answers to correspondents, 427
Answers to correspondents, 12, 24, 35, 48, 60, 72, 84, 96, 108, 120, 132, 144, 156, 168, 180, 192, 216, 228, 240, 252, 264, 276, 286, 298, 310, 322, 334, 346, 358, 370, 382, 394, 406, 418, 430, 442, 454, 466, 478, 490, 502, 514, 526, 538, 550, 562, 574, 586, 598, 610, 618
Antiques, 59
Antiquities, 74
 — ecclesiastical, 424
Annual Report of the South London Photographic Society, 305
Apparatus for Italy, 252
 — 258, 307, 353, 345, 381, 453
Architecture, 109
Architectural Photographic Association, 26, 37, 60, 96, 514
 — Exhibition, 24, 84
Arrangement, 75
Art department of South Kensington, 258
 — photographs, 311, 358
 — and science, what it has come to, 344
 — claims of photography, 426, 441, 447, 465
 — Photographic Society, 274
 — 109
 — committee, 132
 — patronage, 168
 — photography, 228
 — treasures, 228
Artificial silver, 179
Artillerie, 75
Artist's, an, reply to R. A., 449
Artistic photography, an appeal for the practical in, by A. H. Wall, 125, 138
 — 60
Artistically, 110
Art-photography, its scope and characteristics, by C. Jabez Hughes, 2
 — 134
Art-teaching for photographers, 179
Association for the advancement of science, 441, 438, 472, 496, 431
Attitude, 110
Austria, photography in, 355
Award of medals, 562
BACKGROUND, portable, 165
 — 263
 — painted, 568
 — or sky, to graduate, 476
Backgrounds, folding, 154
Balance, 148
Balloon photography, 144
Balloons, photographing from, 489
Balsamo, a new process by, 385
Barber on preparing pure nitrate of silver, 112
 — on organic matter in the nitrate bath, 113
 — on neutralizing silver baths, 209
Base-line, 148
Bath, how to ascertain the amount of silver in a nitrate, 51
 — testers and argentometers, with remarks on, by C. J. Hughes, 51
 — tester, the hydrometer, 71, 86
 — organic matter in the exciting, by Thomas A. Barber, 113
 — acid in the nitrate of silver, 469
 — nitrate, and its troubles, 436
 — testing collodion and the, 453
 — negatives without a silver, 227
 — common water for the silver, 549
Baths, on testing used silver, remarks on Mr. Cramb's paper, by C. Jabez Hughes, 111
 — correcting nitrate, 504
 — on the testing of collodion and printing, by George Dawson, M.A., 184
Beatty's patent heliographic printing, 459
Beauty, 148
Becquerel on the action of light on bodies, 7
Binocular lustre, 496
Bird's-eye view, 149
Birmingham Photographic Society, 93, 206, 237
Birmingham Photographic Exhibition, 206, 275, 276
Blackheath Photographic Society, 103, 163, 199
Black, boldness, brilliancy, 149
 — paper for transfer, 537
Blanchard Valentine, on intensifying processes considered as adjuncts to instantaneous photography, 159
Blanquet-Erard's method of printing by development, 507
Blisters in albumenized paper, 405, 417
Block printing, photographic, 27, 323
Bodies, researches on the action of light on, 7
Book postage to France, 406
Bottles exploding, 378
Bow tent, the, 414
Brasses, 195
Breadth, 172
Bromide of potassium, ammonium, and cadmium, 147
Bromides in dry collodion, 550
Brook Green Photographic Society, 404
Bright or brilliant, 195
British Association for the Advancement of Science, 431, 438, 451, 459, 472, 496
 — at Manchester, 478
Buckle's brush, to use, 476
Buhl-work, 195
Burnt-in photography, by Michael Hannaford, 587, 603
CABINET photographs, 568
Camera, photography without a, 30
 — for four portraits, 453
 — new instantaneous, 481
 — paper positives direct in the, 46
 — Woodward's solar, 124
 — a convenient tourist's, 259
 — the solar; its manipulations and results, by Sydney Smith, 247
 — solar, 252, 289, 297
 — landscapes, ancient, 297
 — shutter, 321
Cameras, improvement in, 382
Camphine, or benzine waxed-paper process, the, 149
Canadian photographs, 370
Carte de visite portraits, 225, 341, 423, 487
Cartes de visite, from the Art Journal, 487
Card portraits, visiting, 13
 — and "the trade," 598
 — 108
Cases, preservative, 297
Cause of the panic at Bull's Run, 454
Celestial photography, the progress of, by Warren De La Rue, 435
Chapter, a, of hints, 509
Cheap printing, 178
Chef d'œuvre, 207
Chemicals, photographic, their manufacture, adulteration, and analysis, 29, 55, 76, 97, 123, 146, 170, 194, 220, 243, 267, 289, 312, 337, 362, 384, 410, 435, 457, 483, 505, 529
Chiaroscuro, 207
Child poisoned in a photographic van, 550
Chinese photographs, 526
Chloric acid in the nitrate of silver bath, by M. A. Gaudin, 469
Chloride of gold, fraudulent, 23
 — of mercury and silver, 220
 — of gold from alloyed metal, 131
 — of gold, 243
Chorlton Photographic Society, 118
Clair-obscur, 242
Classic, 242
Claudet, M., and M. Silvy, 418
Clean fingers, 321, 555
Cleaning the glasses, 293
 — a tin still, 597
Clearness, 242
Close, 242
Coagulated albumen, 33, 47, 59
Cocking camera, remarks on, 7
Coin, new bronze, 12
Collodion-photogene for positives and negatives, by M. A. Gaudin, 409
Collodio-albumen process, by James Mudd, 386
 — instantaneous, 302
 — modified, by H. Petschler, 316
 — 225
 — photography, on the principles of, by Thomas Sebastian Davis, 90, 129, 197
Collodion, wet, without water, by Coleman Sellers, 460
 — dry, with resin, by Saunders Van Loo, Amsterdam, 515
 — experiments in the manufacture of, 507
 — process, who discovered the, 19
 — on simple dried, without a preservative agent, by W. Hislop, F.R.A.S., 579
 — without water, wet, 199
 — a new, 216
 — wet process, on the causes of failure in, by Professor Martin, of the College of Saint-Barb6, 314
 — must be acid and contain free iodine, 363
 — plates, washed, 374
Colours, the theory of the primary, 375
 — Newman's illuminating, 225
Colour glass yellow, to, 298
 — in spirit varnish, 263
 — photographic action of, by T. Clarke, 496
Colouring on albumenized paper, 297
Combine, 254
Comet, the, 334, 370
Common water for the silver bath, 537, 549
Composition, 242
Conceits of the photographic gallery, 36
Condensers for magic lanterns, 107
Confused, 254
Congress of artists, 370
Contemporary hobby, a, 461
Contengin, James, photography on wood for engraving, 100
Continuity, 255
Contour, 255
Contrast, 255
Copyright in works of fine art, 72, 102, 205, 228
Coronation photographs, 610
Cornwall, stereographs of, 490
Correspondence, 9, 18, 32, 44, 56, 67, 81, 92, 102, 119, 127, 142, 154, 165, 178, 191, 202, 226, 238, 250, 261, 273, 284, 295, 308, 319, 329, 343, 354, 368, 380, 391, 404, 415, 425, 441, 463, 453, 474, 489, 500, 513, 524, 535, 558, 583, 596, 609
Correspondents, answers to, 427
Correspondents, answers to, 12, 24, 36, 48, 60, 72, 84, 96, 108, 120, 132, 136, 144, 168, 180, 192, 216, 228, 240, 252, 264, 276, 286, 298, 310, 322, 334, 346, 358, 370, 382, 394, 406, 418, 430, 442, 454, 466, 478, 490, 502, 514, 526, 538, 550, 562, 574, 586, 598, 610
Correcting nitrate baths, 251, 504
County court, photography in a, 512
Cowan, Rev. J. G., a rapid Taupenot process, 349
Cramb's, Mr., paper on testing used silver baths, by C. J. Hughes, 111
Crayon's to prepare prints, 143
Critical notices, 98, 224, 424, 446, 495, 519
Croger's pocket metronome, 604
Crystal Palace school of art, &c, 509
 — medium, 84
Cyanide of potassium, 312
Cyanide, poisoning by, 502
DAQUERROTYPE anticipated, 536
Dallmeyer's stereoscopic lenses, 242
 — triplet lens, 35
Dark rooms, yellow glass for, 215
Dark tents, 203, 381
 — tent, 320
 — a simple, 381
Davis, on gold as a photographic agent, 350
Davis, Thomas Sebastian, on the principles of collodio-albumen photography, 90, 129, 197
Davis's collodio-albumen process, 90, 197
Dawson, George, on the testing of collodion and printing baths, 184
