

THE "STANDARD" DRY PLATES, By the New Rapid Gelatino-Bromide Process.

J. F. SHEW & CO. have great confidence in recommending the above Dry Plates, for the Sale of which they are Sole Agents. Some of the chief advantages claimed for these Plates over all other dry plates are: Reliability—each batch being tested, and no plate sold unless up to the standard; Equal Sensitiveness—every batch being made after our uniform and standard formula, with great care and the most modern appliances for coating, drying, &c.; Freedom from Frilling—These Plates will not frill under any circumstances. Development and fixing proceed evenly and quickly, and with great clearness. The "Standard" Dry Plates keep indefinitely if they are carefully preserved from light and air. Price List on application.

SAMPLE PACKETS, containing Four Quarter Plates and Directions, POST FREE for TWELVE STAMPS.
The larger sizes, from Half-plate and upwards, can be had in half-dozen packets. Orders, which should be accompanied by Remittance, will be forwarded same day as received.

ROUCH'S RAPID GELATINE PLATES.

THE QUICKEST PLATES IN THE MARKET.

During the past few months these Plates have been supplied to several of our Customers, and have given such GENERAL SATISFACTION that arrangements have been made for their preparation on a large scale. They will be found to possess great rapidity, and to combine delicacy of image with facility of intensification, while for freedom from the physical inconveniences usually connected with Gelatine Plates they are unsurpassed. Full directions with each packet.
