

MAWDSLEY'S STUDIO GELATINE PLATES.

Owing to the increased demand for these Plates, and my anxiety to retain the eminent position I occupy as a Manufacturer, I am compelled to seek relief from the Business Arrangements in order to devote the whole of my time to the manufacture.

I have been fortunate in securing the Co-operation of Mr. YORK, a name well known to the majority of Photographers, who will undertake the entire Management of this Department, and to whom all Orders must be sent, addressed to 87, Lancaster Road, Notting Hill, W.

P. MAWDSLEY.

Personal Instructions given to those who feel inclined to call.

Competent Persons sent to those desiring information.

NOTE.—Book for LADBROKE GROVE - Notting Hill.

NOTE.—Book for Notting Hill, and NOT Notting Hill Gate.

In announcing my connection with the first Producer of Commercial Gelatine Plates, I beg to say I have not done so without a most exhaustive series of comparative experiments. I will not attempt to extol the Studio Plates as the very best in the Market, or that they are used in all the most popular studios in England, but this much I will say, they are second to none, and I feel sanguine that under the new arrangement, Mr. MAWDSLEY will be able to concentrate the whole of his varied abilities on the one subject, and turn out the most reliable Plates in the Market. Arrangements are made for producing large quantities, so that orders will receive immediate attention. Personal Instructions given to all who feel inclined to call, and Competent Persons sent to those desiring Instruction. The prices will be uniform with the best makers.
