

THOMAS'S COLLODION

10, PALL MALL,
LONDON.

THOMAS'S COLLODION

USED BY EMINENT PHOTOGRAPHERS FOR NEARLY A QUARTER OF A CENTURY.

THE LEADING COLLODION.

IT IS USED BY THE BEST MEN,
AND AT THE GOVERNMENT OFFICES,
THE ADMIRALTY, ROYAL ENGINEERS,
FOR THE ORDNANCE SURVEYS OF
INDIA, NEW ZEALAND, ETC.

KNOWN AS THE BEST.

IT HAS THE LARGEST SALE.
IT IS THE COLLODION FOR INDIA.
IT IS THE MOST SENSITIVE.
THE IMAGE IS ROUND AND BRILLIANT
IT IS NOT SURPASSED IN QUALITY.

THOMAS'S COLLODION is pronounced by many of the most accomplished Photographers to be, WITHOUT EXCEPTION, the Best Collodion for Iron Development ever yet manufactured. With a view, also, to subsequent enlargement, there is no collodion that surpasses it in the delicate qualities of the negative. **THOMAS'S COLLODION**, the first introduced commercially, has been from time to time modified to suit the requirements of the day. The Manufacturer announces with some pride that at the present moment the sale for his collodion is more than ten times greater than when for years he stood alone as a manufacturer of collodion, almost without a rival; and notwithstanding the introduction of preparations sold at a lower price, the demand for **THOMAS'S COLLODION** is yearly increasing.

IT IS USED, AND MAY BE OBTAINED THROUGHOUT THE WORLD.

CROWN ALBUMENIZED PAPER.

Double Albumenized "Extra Gloss," £6 10s. per Ream; 7s. per Quire, post free. Single ditto, £4 10s. per Ream; 5s. per Quire, post free. Supplied in White, Light Pink, or Light Blue Tints.

G. H. & Son confidently recommend the above as being a first-class Paper.

CROWN EMULSION

For preparing Dry Plates. 3-oz., 2/6; 5-oz., 4/-; 10-oz., 7/6; 20-oz., 15/-.

By using the above Emulsion, Photographers can readily prepare their own Dry Plates, and effect a very great saving in cost. A 5-oz. bottle of the Emulsion will coat about six dozen half-plates. Full Instructions on Application.

Sole Agents—**GEORGE HOUGHTON & SON,**
89, HIGH HOLBORN, LONDON, W.C.
