W. WATSON & SON, 313, High Holborn, London, W.C.
(2 Doors from Chancery Lane) Established 1837.

ROUCH'S NEW PATENT CAMERA.

THIS CAMERA is acknowledged by all who have used it to be the lightest and most convenient for Landscape purposes that has been produced, and is undoubtedly the best instrument for every description of Dry-Plate work. The double swing-back renders it also peculiarly useful in portraiture. These advantages are gained by an entirely new arrangement of the various parts, and without in any way impairing the efficiency or strength of the instrument. This Camera should be inspected by all intending purchasers. Full particulars on application.

ROUCH'S ALBUMENIZED PAPER,
Every sheet picked. Ream £5 10/-; Quire, 6/6.

ROUCH'S SENSITIZED PAPER,
White or Rose Tinted, prints in every way superior to ordinary albumenized paper, and will keep for months.

Per Quire, 14/-; Half-Quire, 7/6; Sheet, 1/-.
The continuous orders we are receiving from Photographers of the highest standing in all parts of the country sufficiently testify to the high character of this Paper.

COMPLETE SETS OF APPARATUS for the Dry Process. Estimates forwarded.

ROUCH'S RAPID GELATINE PLATES { will be found to possess the greatest Rapidity and Brilliance, and are unequalled for Instantaneous Landscape and Studio Work. The Negatives produced with these Plates are not to be distinguished from those taken by the wet process. }
4½ by 3½, 2/9 per doz. | 5 by 4, 4/- | 6½ by 4½, 6/- | 7½ by 5, 8/- | 8½ by 6½, 11/- | 9 by 7, 12/6 | 10 by 8, 17/- | 12 by 10, 24/- Orders for 6 doz. and upwards, 10 per cent. Discount.

DALLMEYER'S NEW PATENT LENSES,

ESPECIALLY CONSTRUCTED FOR USE WITH THE
OPTICAL LANTERN

(commonly called Magic Lantern).

These Lenses (intended for use with the Optical Lantern *only*, and not for photography) produce the most brilliant Enlargements upon the screen, true to the original both in outline and colouring; they are free from all distortions, the images are well defined throughout, and the field is flat.

No. 1. LANTERN LENS (Patent) suitable for 3½ in. Condensers	£4 4 0
No. 2. LANTERN LENS (Patent) suitable for 4 in. Condensers	5 5 0
