

Circular Series University of Illinois Engineering
Experiment Station

+ VI 8° 2557: University of Illinois Engineering Experiment Station.-
Lab No. 66 ff Circular Series. No 9. 21-25.26-39. 61-68. 69.70
VI 4° 2557: Urbana: Univ. of Illinois 1931, 1930-1935. 1930-39. 1951-60. 8°

61. Howard, E.W. : The catalytic dehydrogenation of butanes. 1950.
62. Rose, Lisle A., Elmer F. Heater, George R. Foster: Preparing technical material for publication. 1951.
63. Voskuil, Walter H.: An economic study of fuels in manufacturing. 1951.
64. Hogaestad, Eivind: What do we about diagonal tension and web reinforcement in concrete? 1952.
65. Tuthill, John K.: An electric recording water meter. 1952.
66. Mapother, Dillon E., James N. Snyder: The variation of the magnetic field in solenoids of finite thickness. (1955.)

123 R&S 1 46 30000

67. Huang, Eugene Y.: Manual of current practise for the design, construction and maintenance of soil-aggregate roads. 1959.
68. Harris, Warren S. and L.N. Montgomery: A Comparison of the performance of various room heating units used in the I-B-R research home. 1960.
69. Proceedings second sanitary engineering conference. 1961.
70. Engineering departmental reports and theses. 1961.
