

Wilson, Wilbur M.

- VI, 2557,21: Tests of Welds. A report of an investigation conducted by the Engineering Experiment Station, University of Illinois in cooperation with the Chicago Bridge and Iron Works. Urbana: University of Illinois 1930. 37 S. 8°. Circular of the University of Illinois Engineering Experiment Station. No.21.) (University of Illinois Bulletin. Vol.28, No.11.)
- XV, 1705, 269 and Ralph W. Kluge: Laboratory tests of threespan reinforced concrete arch ribs on slender piers. A report of an investigation.
Illinois: University of Illinois. 1934. 122 S. 8°
= University of Illinois. Engineering Experiment Station. Bulletin. (In: University of Illinois Bulletin.) No. 269.

- XV, 1705, 280: And Rex L. Brown: The Effect of residual longitudinal stresses upon the load-carrying capacity of steel columns. A report of an investigation conducted by the Engineering Experiment Station University of Illinois...
Illinois: University (1935). 28 S. 8°
= University of Illinois. Engineering Experiment Station. Bulletin No 280.
- XV, 1705, 275: and Ralph W. Kluge: Effect of time yield in concrete upon deformation stresses in a reinforced concrete arch bridge.
Illinois: Univ. of Illinois 1935. 32 S. 8°
= University of Illinois: Engineering Experiment Station. Bulletin. No 275.
