Comprehendentur in superbia sua (i. e. vel propter superbiam suam) hebraica cum Lombardo ob latinos [illegible] exprimunt. Vide ergo [illegible] luxuriatus, abominatus [illegible] es, oravisti, [illegible]: at sic [illegible], non comprehenderis, quia tuipse [illegible] videas te male fecisse: non comprehenderis. Sed omnia ista [illegible] comprehendis. Sed si tibi [illegible] videri. Et omnia bene intendere [illegible] tentare, [illegible]. [illegible] non vides hanc superbiam [illegible]. Et sic [illegible] domino [illegible] dei: hic non poteris te doceri et [illegible]: [illegible] et bona sed deo omnia [illegible] et bona placent. [illegible] hic in superbia comprehenderis. [illegible] sola ista superbia [illegible] et singularitatem [illegible]: [illegible] et [illegible].

Et vide [illegible] dei [illegible] ut isti heretici [illegible], multa et ardua et [illegible]. [illegible] difficillime et [illegible] mobiliter faciunt. [illegible] a diabolo [illegible] ut sic [illegible] potuit levari: et ita superbiam suam [illegible] agnoscunt. [illegible] et [illegible]. [illegible] et [illegible] prima. [illegible] a deo [illegible] impediri, ut [illegible] et [illegible] suam misericordiam: Et [illegible] plorent lugeant et peniteant et [illegible] dextera dei. Et sicut [illegible] regnum celorum rapiunt. Et ideo certamen forte dat illis ut vincat et [illegible] fortior et sapiens. Illis autem tam forte [illegible] opus [illegible] ut [illegible] nos [illegible]: At [illegible] sic nos [illegible] fortes sunt et sancti, [illegible] nihil aliud faciunt, nisi [illegible] et comprehendantur superbia sua. O [illegible] ista heretica [illegible] nostri. [illegible] signa et prodigia [illegible], in quibus antichristi omnes [illegible], ita ut in errorem [illegible], [illegible] si fieri potest etiam electi.

Ipsi dispergentur ad manducandum: [illegible] in bonum exponunt. [illegible] laboriosa est expositio et interrupta. [illegible] satis violenter exponitur. At [illegible] nostrum [illegible] non satis [illegible] videtur. [illegible] dicitur. [illegible] omnibus carnalia sapientibus, [illegible] ut si non abundent, [illegible] ad votum, murmurent. [illegible] et hic [illegible] videtur oportere in hoc seculo abundare. Sed [illegible] non indigere [illegible], et [illegible] murmurabant [illegible] in [illegible] abundantia [illegible] si non fuerint saturati, [illegible] et non murmurat, [illegible] dispergentur ad manducandum. Sed potius ad abstinendum et in [illegible] illi [illegible] carnalia [illegible] in hoc [illegible]. Vel si [illegible]. Nam [illegible] heretica [illegible] [illegible]. [illegible] et [illegible]. Sed [illegible], [illegible] patientes [illegible] fuerunt [illegible]. Et si possent [illegible]. Sed [illegible] murmurare [illegible].
