mensam. Et impinguasti in oleo caput meum. Multis modis [illegible] calix in scriptura
in scrip. sancta. Et ps. 15. Dominus pars calicis mei, i. in scrip. sancta. Ego bibo
sensum de domino Christo: vt s. Benedicam dominum qui tribuit mihi intellectum. Nam
hunc intellectum scrip. secundum sensum Christi: est hic dominus pars calicis nostri. Hic autem
intellectus secundum literam est hic seruus et Mosen pars calicis nostri. Ideo spiri-
tualis populus dicit. Dominus pars calicis mei et hereditatis meae: Carnalis autem: Seruus
Moses est pars calicis mei. Ista autem pars calicis [illegible] ps. 30. dicitur. Quam
grande mul. [illegible] [illegible]. Hec autem loco dicitur: Ipse calix qui non sinuit
eos exinaniri sed [illegible] [illegible]. Sensus ergo est

Calix in manu domini, i. scrip. in potestate dei, cuicumque voluerit dabit eam.
Dat autem omnibus humilibus. Calix [illegible] vini meri, i. purissime intelli-
gentie sine admixtione carnalitatis. Sed tamen [illegible] spiritualia sapiens et [illegible]
est autem in heb. Vna dictio. Vini meri: Vinum et Isaie .5. scrip. dicitur
Vinea meri, i. puri vini quod est euangelium [illegible] [illegible] [illegible] [illegible] sed non

Plenus mixto: quod scilicet multis modis [illegible]. Primo quod idem calix sit [illegible]
[illegible] omnium [illegible] et [illegible]: Vt vnicuique sapiat secundum quod voluerit. [illegible]
illud scrip. [illegible] Bibite vinum quod miscui vobis. Et hoc [illegible] [illegible] [illegible]
illi meri vini: [illegible] nos a carnalis vini [illegible] remouere: quod
non [illegible] sit merum et mixtum. Aliud [illegible] mixtum. [illegible] sit [illegible]
[illegible] [illegible] [illegible] in christo: sit [illegible] [illegible] [illegible] sibi [illegible]
[illegible]. Sic [illegible] in Cantic. Comedi fauum cum melle meo: Nam [illegible] [illegible]
[illegible] Caro non [illegible] [illegible] sed sola sed est [illegible]. Verumtamen caro mea vere est
cibus et sanguis meus vere est potus. Sed sit [illegible] et [illegible] [illegible] et [illegible]
[illegible] est bibere merarissimum vinum. [illegible] mixtum optime. Iudei [illegible] [illegible]
[illegible] [illegible] in Messia sapiunt: [illegible] [illegible] [illegible] calicis bibunt: [illegible] [illegible]
in [illegible] [illegible]. [illegible] sic [illegible] absconditum in mysterio non cognoscunt. [illegible]
Non fuit [illegible] dei in lege Mosi, vt vmbra ista et figure [illegible] [illegible]
[illegible] et [illegible] future veritatis [illegible] [illegible]. Et qui [illegible] intellexerunt
biberunt calicem meri, plenum mixto. Sed quia illi vmbras in rem
et figuras pro veritate statuunt: [illegible] [illegible] sibi faciunt [illegible] mixto illo [illegible]
[illegible] vnio. Et [illegible] sibi [illegible] literam et signum. Sic quia merum [illegible]
[illegible] [illegible]. Et [illegible] [illegible]. Ideo ps. [illegible] [illegible]. Vt [illegible] [illegible]
[illegible] [illegible] et [illegible] [illegible]?

Sic [illegible] hoc de scriptura sic de natura et omnibus aliis bonis [illegible]
[illegible] Vera bona [illegible] spiritualia: sunt in [illegible] tanquam in suis signis, vmbris
et calicibus. [illegible] Calix est [illegible] vinum in illo est sensus in illo
[illegible] autem est carnalis sensus. Sic [illegible] [illegible] creature est velut calix.
Que si spiritualiter accipiatur et [illegible]. Est calix meri et mixti. Si autem
[illegible] [illegible] est calix fecis. Sic bibunt omnes peccatores terre. Sic [illegible] omnium
[illegible] [illegible] sic [illegible] [illegible] Isaie 1. Vinum tuum mixtum est aqua
Argentum tuum versum est in scoriam. Sic [illegible] de [illegible]: [illegible] [illegible] est calix: dolor
et pena [illegible] est vinum in illo. Sic [illegible] [illegible] [illegible] potius. Sic [illegible] [illegible] [illegible]
[illegible] et [illegible]

Calicem salutaris accipiam [illegible] [illegible] [illegible] [illegible] et sensum [illegible] [illegible] accipiam [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] et litera [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]
