

68 EVCLID. ELEM. GEOM.  
dem habebunt propositionem; si, prout inter  
se respondent, ita sumptæ fuerint.

Theorema 5. Propo-  
sitiō 5.

Si magnitudo magnitudinis æ-  
quæ fuerit multiplex, atque ab-  
lata ablata: etiam reliqua reli-  
quæ ita multiplex erit, vt tota to-  
tus.

Theorema 6. Propo-  
sitiō 6.

Si duæ magnitudines, duarum  
magnitudinum sint æquæ multi-  
plices, & detractæ quædam sint  
earundem æquæ multiplices: &  
reliquæ eisdem aut æquales sunt, aut æquæ  
ipsarum multiplices.

Theorema 7. Propo-  
sitiō 7.

Æquales ad eandem eandem ha-  
bent rationem: & eadem ad æ-  
quales.

Theorema 8. Propo-  
sitiō 8.

Inæqualium magnitudinum maior ad ean-  
dem
