PROFESSOR LUCIAN BERNHARD

PEPPERELL
 SHEETING *Sheets* PILLOW CASES

1845-1846 were the great sleeping times in the land of "The Lady of Shalott" as they have been found down to one of her descendants, now living in Virginia.

Just when these notes were made," writes this woman, "I do not know. But 'The Lady of Shalott' was 22 in 1821, and she married the beloved lord who was 20 in 1821."

But the first time when spun out of the Biddford House in 1845 - better known, woven lightly and better to wear. Their form spread easily. When never stopped. Only for one typical Pepperell Sheet was washed 1/2 to twice - no more today is not and from at the very best of "The Lady of Shalott."
