

PLAIN

OR FANCY

ESQUIRE SILK HOSE has one of those dual personalities we hear so much about nowadays. Knitted of the finest Japanese silk, Esquires can be had in rich solid colors, \$1 up, or handsomely clocked, \$1.35 to \$5. Each pair, plain or fancy, is made with double-wear like toe. The beautiful clocks of \$1.35 Esquires are achieved on a huge Swiss embroidering machine which operates with the delicate precision of a watch. It is built on a concrete base, sunk six feet into the ground, so that no vibration can mar the perfection of the embroidery. The \$2 and \$5 Esquires are clocked by hand. Fine for Christmas giving!

PLAIN

OR FANCY

ESQUIRE SILK HOSE can be had in beautiful solid tones, \$1 up, or gracefully clocked, \$1.35 up. Into every pair, plain or fancy, go 3 miles of single strand silk. Only the richest Japanese silk is used—the grade which Yokohama bills of lading quaintly describe as “finest best double extra No. 1”. The \$2 and \$5 Esquire hose are clocked by hand—hand-embroidered in the homes, with the same laborious, loving care which your grandmother used to lavish on floral centerpieces for the dining-room table. Made with reinforced, long-age toe. Very handsome! Very fine for Christmas giving!
