out of
a sheraton past
into a future of
modern refreshments

... we sing our praises with liquid notes
... the thomas sheraton origin of this
cabinet is obvious to the connoisseur
... so is its modern purpose ...

... flat-topped when not in use ...
but with the simple movement of
lifting the lid, the completely
equipped tray rises into view ...
while cigars and cigarettes may be
comfortably settled in their spe-
cially designed compartments ...

... no hat that only one masculine
maker can own ...
