

ENTWURF FÜR EINE PARFUMFLASCHE FÜR LENTHERIC / DESIGN FOR PERFUME BOTTLE FOR LENTHERIC

G U S T A V B. J E N S E N

We take pleasure in announcing to the trade a new type of rug—more luxu-
Trious than any we have yet produced. This new fabric will go far to supplant
the cheaper grades of Oriental Rugs, which we ourselves, though one of the largest
Importers of Orientals, have never recommended. It is seamless, deep and heavy
in pile, heavy in texture, and one of its most remarkable features is its lustre, which
is exactly the same as in the most expensive of Oriental rugs. **B**y this means beau-
tiful Persian designs have been reproduced with all the jewel-like brilliancy of
their original colorings. **A**t the same time the new fabric can be sold with abso-
lute confidence in its durability. **T**he best weavings will be on view in our New
York Showrooms on April 9th, 1928. **Y**ou are cordially invited to view them.
