WALTER BREKER

The cover of this number of the magazine as well as the following reproductions represent a few samples of the work of a young and unusually talented graphic artist whose speciality is script. The cover design and the other examples of calligraphy reproduced here have come into being in collaboration with the esteemed printing firm of A. Wohlfeld, Magdeburg. Both in graphic inventiveness and in technical finish they constitute some of the best work which is being done at present in Germany in this branch of art. Trans. by E. T. S.
