THE CLEVELAND-CLIFFS IRON CO • CLEVELAND • OHIO

Into the top of a mammoth blast furnace, hot after long cold, lifeless material—ore, gray coke and limestone—is charged. Inside, a seething, hot molten mass bubbles while dwarf-like men watch and control at their posts. Blast after blast, mouth after mouth, from the furnaces comes the roar of fire . . . then, a white glare . . . splashing and sparkling, a river of metal flows from the furnace. The Pig Iron is made Cleveland-Cliffs Pig Iron is made from the best grade Lake Superior ore—Standard Basic Iron and all grades of Fossils and Malakite are furnished.
