

THE LARGEST *BLUE DIAMOND* IN THE WORLD

Most of the world's historic diamonds are now part of the crown jewels of what is left of European monarchies. The Orloff is Russia's. The Koh-i-noor belongs to England, as also the Cullinan, which was presented to the late King Edward by the Transvaal. The Florentine is owned by Austria. Behind each of these famous stones is a long trail of romance and adventure.

Another historic jewel is the Black Starr & Frost diamond—a blue diamond, of particular intensity of color, weighing 127 carats, and larger

than the Koh-i-noor. More than that it is the largest blue diamond ever discovered, is absolutely perfect in every way, and is the largest diamond of any kind offered for sale. Size $1\frac{1}{4}$ " by $1\frac{1}{4}$ ", price \$300,000.

There have been other famous jewels, of course, in the history of Black Starr & Frost. Five generations of customers have relied on this house for their rarest gems. We look forward with pleasure to providing the same service for many more generations in the years to come.
