A Distinguished New Shoe Fashion *Sea Kid*

AN eminently superior sort of fish, that spends his lifetime in the sunlit Adriatic, is caught . . . probably in his prime . . . to furnish this strange and lovely leather, delicately grained and dyeing to most lustrous tones. Because of its unusual beauty and fitness we are presenting it in a new group of formal daytime shoes.

Sea Kid...

Combined with made-in models made in our famous Foster Lasts. In black or brown.
