Featuring
**TWIN SHOES
FOR AFTERNOON**

EXCLUSIVE SAKS • FIFTH • AVENUE DESIGNS

It is smart to have two pairs of shoes—pumps and ties—of the same design. It is also a great convenience. Two sets of these twin shoes are pictured below.

Oxford tie of black or brown suede, cut over in scallops with underlay of satin. The pump to match has a swaggee heel. Made on the famous Fenton last. Each pair, 14.50

Famous Fenton pump of black or brown suede with heel and stripings of patent leather. The Oxford to match has heel and stripings of kid. Each pair, 14.50

WICKET FLOOR

Good daily press advertisements from English and American newspapers

Open and clear in the division, light in the drawing, sufficient white space to distinguish picture and text from the lay-out

Winter hath its charms. . .

WINTER, scarcely less than summer, has its charms—the wooded countryside in the grandeur of its winter bareness, the glory of the snows and frost—and the delights of driving a sweet-running, responsive car fuelled with the best of winter spirits—the double-quick starting *winter grade* Pratts Ethyl, which contributes so largely to the fascination of winter motoring.
