

# POSTERS FROM MUNICH

The decorative character and vitality of the Munich poster has been preserved inspite of the manifold crisis it has passed through.

Beside the artists themselves, well managed printing works have been instrumental above all, in keeping up the good Munich traditions.

The posters on page 38—43 as well as the cover of the magazine was printed by the „Münchener Chromolithographische Kunstanstalt“, which, under the management of their Mr. Mehnert, always endeavours to achieve first class work.
