

# POSTERS FROM PARIS

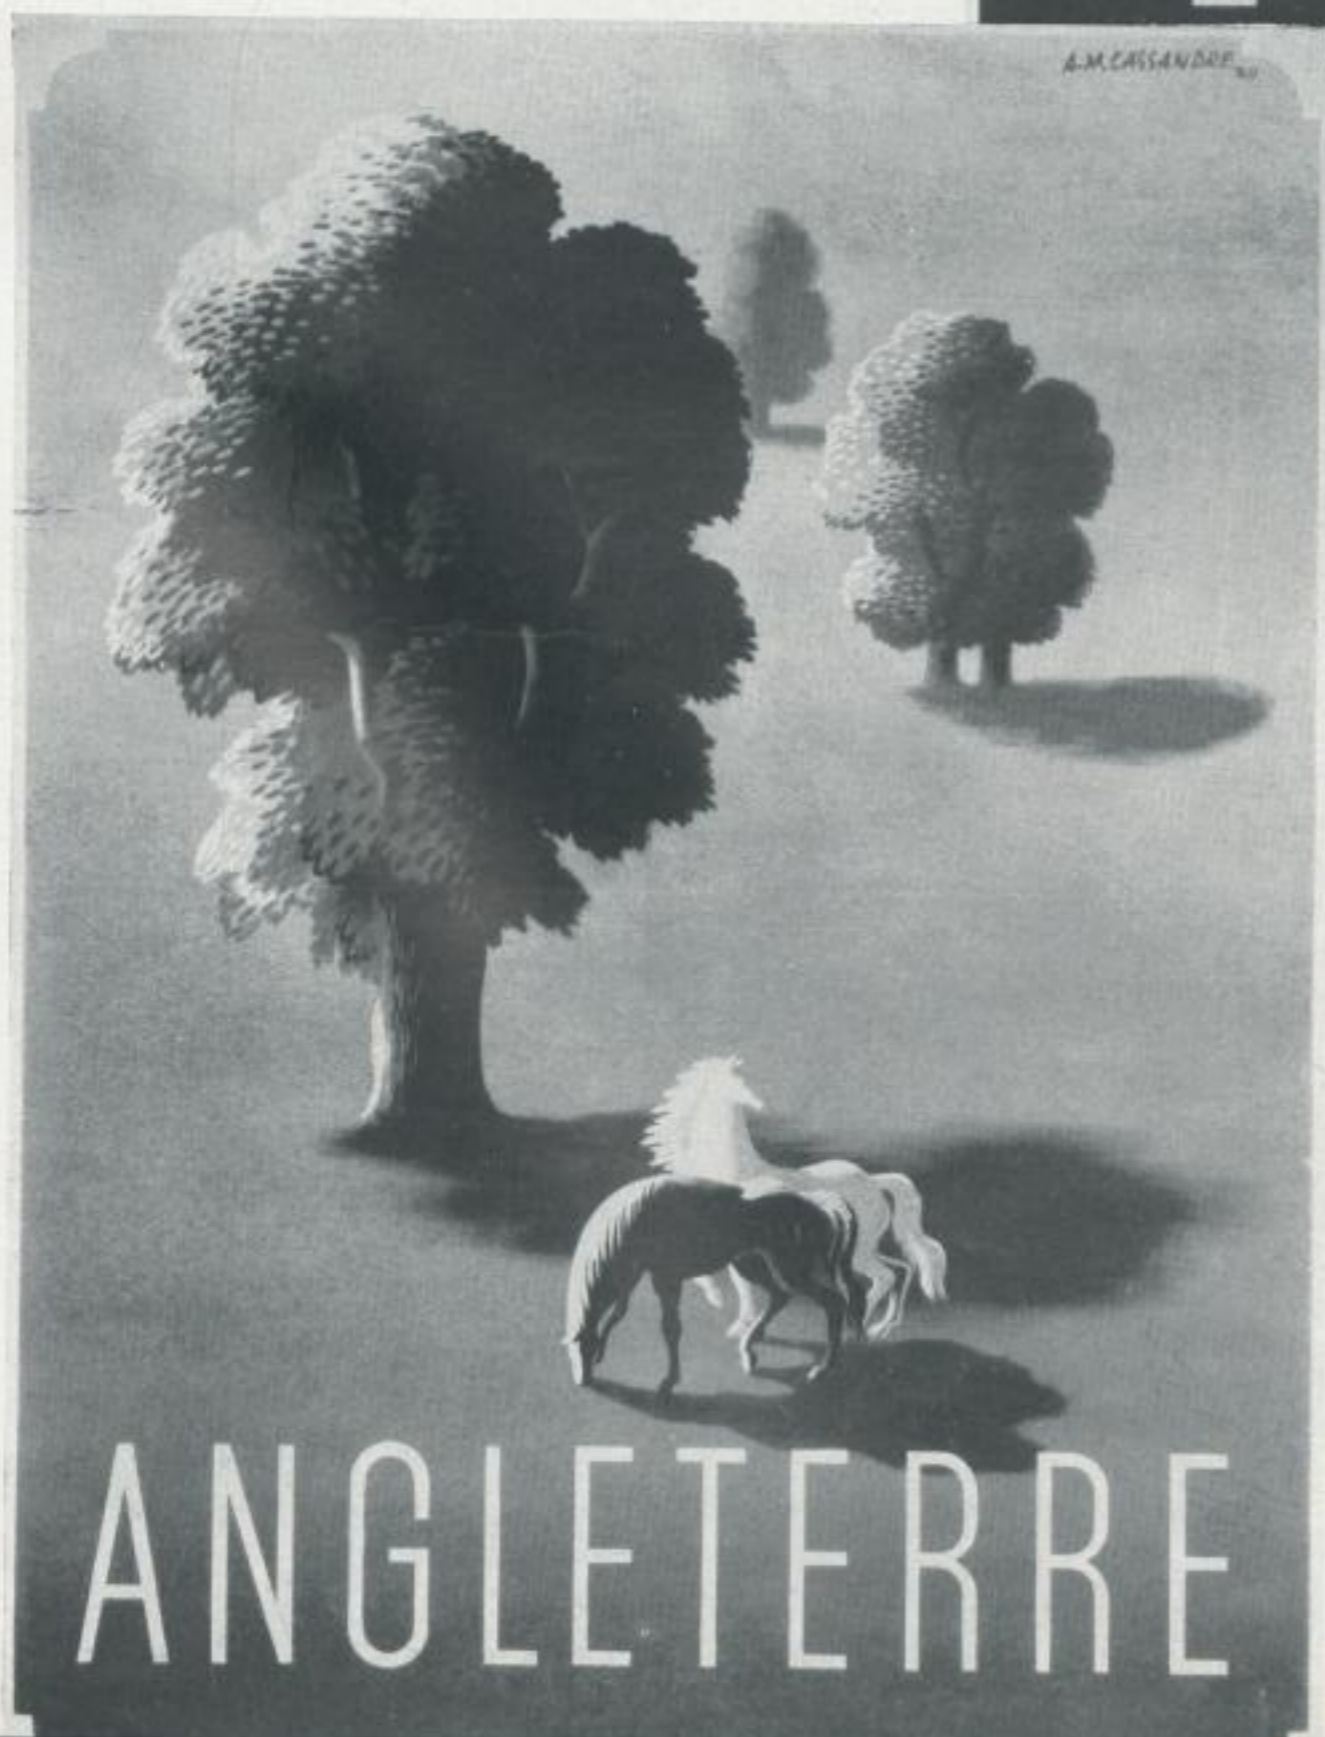

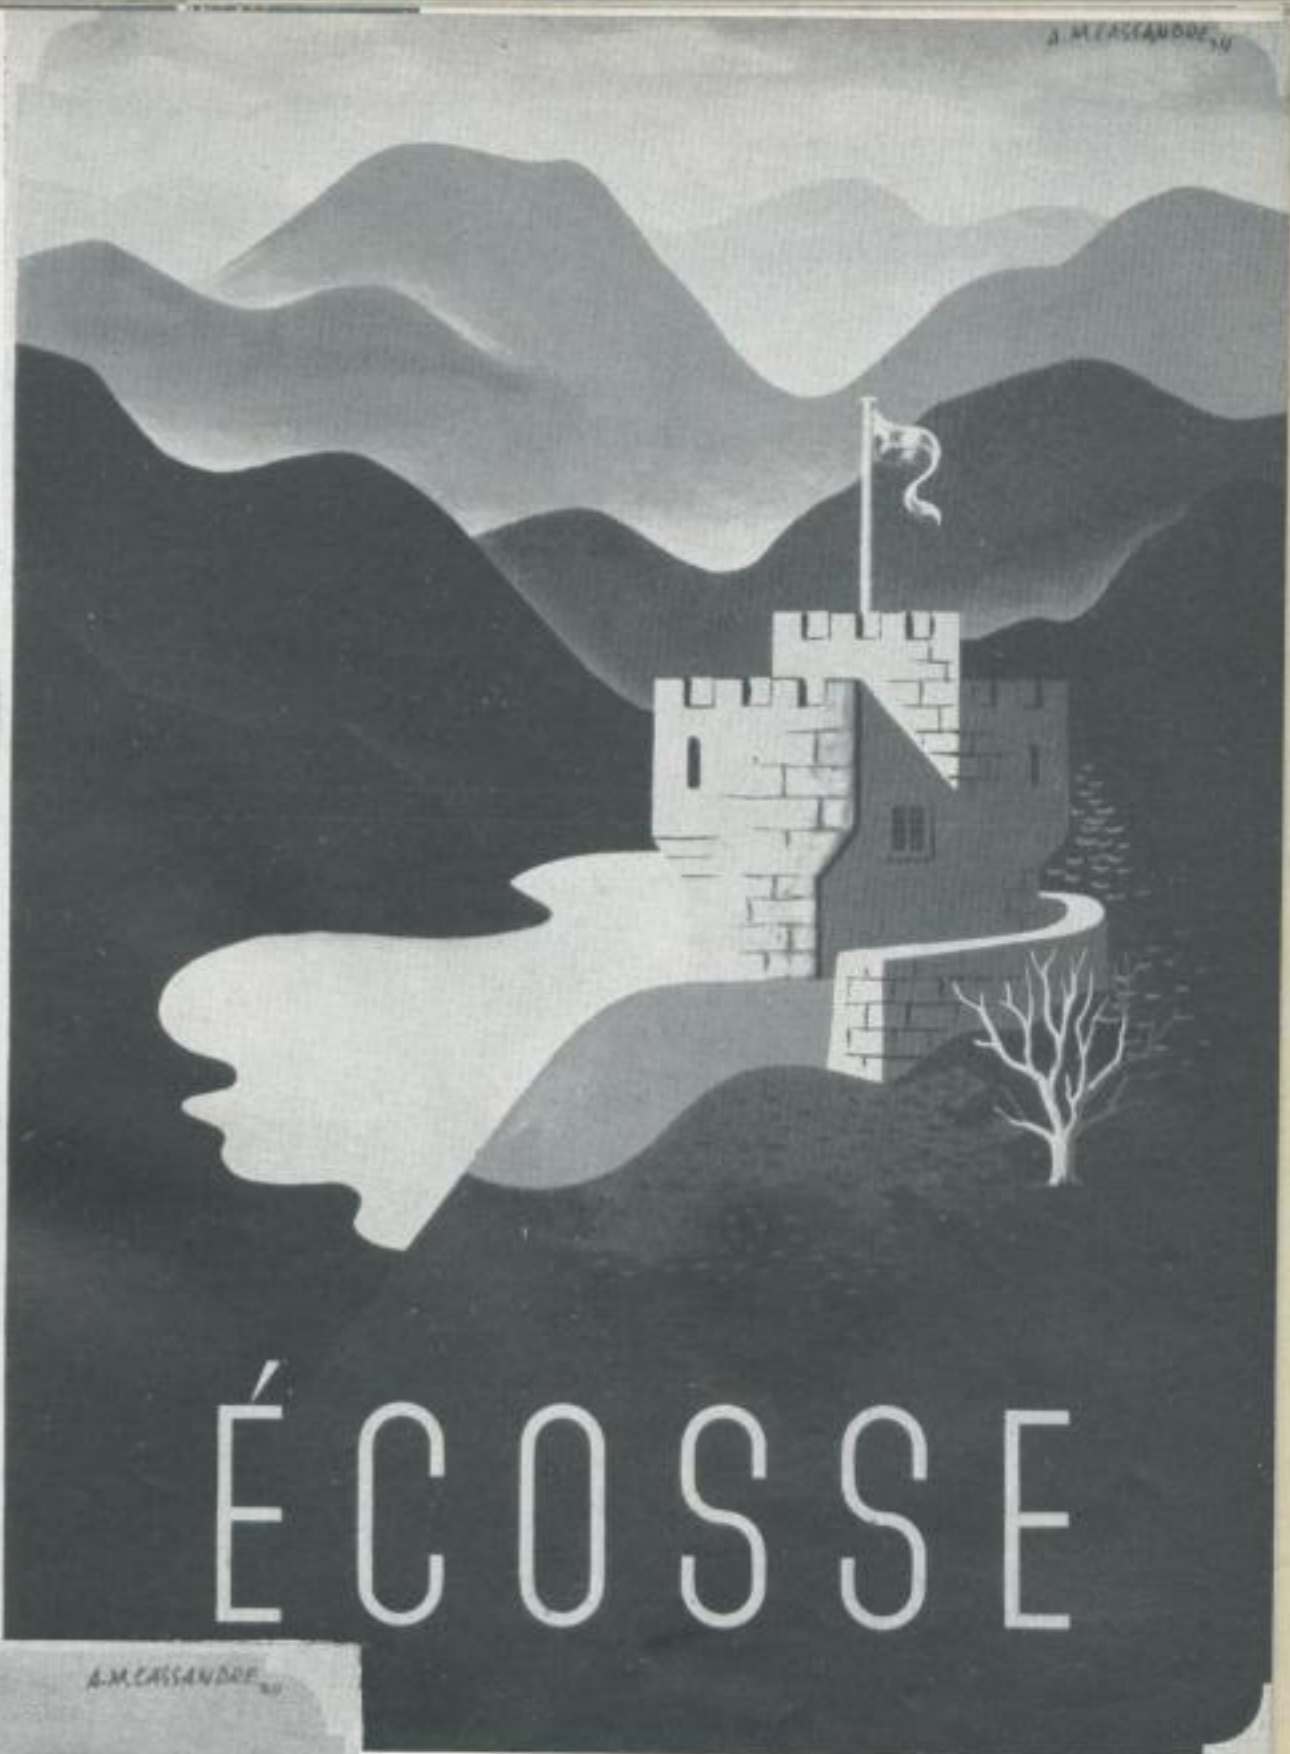

The French Ministry of Commerce and Industry has issued 4 posters for the „Grandes Fêtes de Paris“.

Cassandre chooses as his subject one of the marble figures which leads to the green lawns and the gardens of the Champs-Élysées.

Paul Colin uses the old Paris city arms.

Jean Carlu has chosen as his subject a race-course the delicate early summer green of which gives a particularly light character to the poster.

Jean Gabriel Domergue's poster, inspite of its bad drawing, impresses us with its special elegance.
