FASHIONABLE
EXTREMITIES
OF TEN SMART WOMEN

FROM the top shelf come these shoes and the women who wear them. Each model and style set, each fringe or pump represents the complete personal taste of the woman who wears it.

Each photograph is its own excuse for being, the individual "show-out" of a fashionable woman who knows what she likes and likes what is smart and shows shapely, aristocratic feet deserve the luxury of the shoes that seduce them. These pictures, and others you will find on page 118 with some interesting styling news, represent her unconfused choice of what to wear when striding along the floor, when stepping into a motor, when placing a rubber of lunge, or when dancing way into the night.
