

SCHMIDT-BERG

Genuine humour combined with charm and grace characterize Schmidt-Berg's drawings, a gift and fortunate mixture that do not occur very frequently. In No. 5 of our 12th year of issue, pages 40—45, we reproduced drawings which were mistakenly attributed to another draughtsman. A comparison shows, however, that they could only be the work of Schmidt-Berg, and we now correct the mistake we made at that time. Schmidt-Berg is a young artist who is qualified to solve many tasks.
