PRODUCE BETTER ROPE WITH
WHITCOL

Use Whitcol J for the emulsion batching of Jute, Manila, or Hemp. In practice it gives more uniform results and greater penetration than the old method of adding oil and water separately. Oil-in-water emulsions are easily prepared and water-in-oil emulsions stabilised by its use. Whitcol J does not impart any unpleasant odour to the fibre, and does not affect the colour.

IMPERIAL CHEMICAL INDUSTRIES LIMITED
 DEPT. D 49, IMPERIAL CHEMICAL HOUSE, LONDON, S.W.1
Sales Offices at Belfast, Birmingham, Bradford, Bristol, Dublin, Glasgow, Hull, Leicester, Liverpool, London, Manchester, Newcastle-on-Tyne and Norwich.
 "Whitcol" is a trade mark registered in Great Britain, and is the property of British Overseas Corporation Ltd., a subsidiary company of Imperial Chemical Industries Ltd.

WHEREVER public health is exposed to infection, there's the place for 'Chlorox'. This disinfectant is a powerful steriliser and deodoriser even in dilute solutions. Used regularly in swimming baths, public halls, schools, institutions, and lavatories, it destroys the breeding grounds of germs and prevents epidemics. Public Health authorities are invited to send for full particulars.

THE health of the public lies largely in your hands—safeguard it with 'Chlorox'. Regular use of 'Chlorox' in public buildings, schools, libraries, baths, and lavatories, will help towards ensuring a healthy community. Its powerful action destroys the sources of infection, and eliminates smells. 'Chlorox' is most economical in use, as only dilute solutions are necessary. Send for further particulars.
