

Sepo PARIS

FIGURINEN FÜR EINE MODE-
AUSSTELLUNG IN TURIN

special mention are the Christmas poster with the Crib and the posters advertising a lottery. Charming again are the figures of mannequins made of twine. Let the reader examine their coiffures. Truly work worthy of a Figaro's master hand! Sepo today works principally for French, Italian and Swiss clients. He is always in demand when something particularly original has to be devised. Finally Sepo is a practical man who has long since printed many of his own designs in his own printing establishment. True, this is not always the case for many a firm has obligations elsewhere. Otherwise Sepo is to be found at his lithographic stones and the real artist comes to the fore. Printing must be well done. Sepo enjoys the labour of his hands and his sensitive genius subtly influences all he does.
