

161 a/77 a	Plane section of a right triangular prism
161 b/77 b	Plane section of an oblique triangular prism
162/78	Plane section of a pyramid
163/21	Perspectivity of circle and ellipse
164/22	Affinity of circle and ellipse
165/185	Gardener or string construction of the ellipse
166/37	A simple ellipsograph
208/140	A parabolic cylinder
209/141	A hyperbolic cylinder
503/58 a	Moebius' band
801/106	This model shows that under the stereographic projection the angles remain unchanged
803/123	} Stereographic projection of the map grid of the globe
804/124	
805/125	
908/202	Rotation apparatus
	For this apparatus the models 909/202 u — 931/202 x can be delivered as insets.
909/202 u	Right circular cylinder
910/202 v	Right circular cone
911/202 w	Sphere
912/202 b	Sphere with segment, sector, zone, and cap
913/202 e	Oblate ellipsoid
914/202 f	Prolate ellipsoid
929/202 t	Application of the centrifugal force for safety valves
930/202 s	Effect of the centrifugal force on a rotating solid
