*Non est Corpus Sole pretiosius.*

*Nec est Aqua quam Vinum nobilior.*

*O felicissimum octonarium numerum plenitudinis. Saturnus, Mars, Venus debent calcinari philosophi. Et crede mihi quod hic habes schedulam meliorem omnibus libris tuis.*

*Hec aqua singularis distillatur non omnibus cognita. Matrimonium aquarum una cum rebus philosophis.*

*Octas in monadem Luna projecta creat Enneadem, e quibus omnibus Decas oritur numerus omnis atque universus. Ubi tamen fulvus fons fundit oculatam Nabatheo cardine lucem. De laus & honor in Secula Seculorum.*
